Pat-El, 2019-02-18 *The Semitic Languages* presents a comprehensive survey of the individual languages and language clusters within this language family from their origins in antiquity to their present day forms. This second edition has been fully revised with new chapters and a wealth of additional material. New features include the following new introductory chapters on Proto Semitic grammar and Semitic linguistic typology; an additional chapter on the place of Semitic as a subgroup of Afro Asiatic; and several chapters on modern forms of Arabic, Aramaic and Ethiopian Semitic. Text samples of each individual language transcribed into the International Phonetic Alphabet with standard linguistic word by word glossing as well as translation, new maps and tables present information visually for easy reference. This unique resource is the ideal reference for advanced undergraduate and postgraduate students of linguistics and language. It will be of interest to researchers and anyone with an interest in historical linguistics, linguistic typology, linguistic anthropology and language development.

**Usage-Based Studies in Modern Hebrew** Ruth A. Berman, 2020-03-18. The goal of the volume is to shed fresh light on Modern Hebrew from perspectives aimed at readers interested in the domains of general linguistics, typology and Semitic studies. Starting with chapters that provide background information on the evolution and sociolinguistic setting of the language, the bulk of the book is devoted to usage based studies of the morphology, lexicon and syntax of current Hebrew. Based primarily on original analyses of authentic spoken and online materials, these studies reflect varied theoretical frames of reference that are largely model neutral in approach. To this end, the book presents a functionally motivated dynamic approach to actual usage rather than providing strictly structuralist or formal characterizations of particular linguistic systems. Such a perspective is particularly important in the case of a language undergoing accelerated processes of change in which the gap between prescriptive dictates of the Hebrew Language Establishment and the actual usage of educated, literate but non expert speaker/writers of current Hebrew is constantly on the rise.

**Historical Continuity in the Emergence of Modern Hebrew** Yael Reshef, 2019-11-13. Historical Continuity in the Emergence of Modern Hebrew offers a new perspective on the emergence processes of Modern Hebrew and its relationship to earlier forms of Hebrew. Based on a textual examination of select case studies of language use throughout the modernization of Hebrew, this book shows that due to the unconventional sociolinguistic circumstances in the budding speech community, linguistic processes did not necessarily evolve in a linear manner, blurring the distinction between true and apparent historical continuity. The emergent language's standardization involved the restructuring of linguistic habits that had initially taken root among the first speakers, often leading to a retreat from early contact induced or non classical phenomena. Yael Reshef demonstrates that as a result, superficial similarity to earlier forms of Hebrew did not necessarily stem from continuity and deviation from canonical Hebrew features does not necessarily stem from change.
