

# Manually Adding a Product in Allscripts TouchWorks

## Manually Adding

If you have chosen to prescribe an injectable product and it is not available in Allscripts TouchWorks, consider consulting your practice EHR IT support team to manually add it to the product list. Manually adding a new product will enable documentation of a sample or prescription in the EHR for future reference.

### Adding a product as an Orderable Item:

1. Navigate to **Dictionaries** in the TW Admin menu
2. Select **Orderable Items**
3. Within Orderable Items, select **Medication and Pharmacy Supplies**
4. The Medication Orderable Items screen appears
5. Enter **Drug Name**
6. **Route of Admin:** Subcutaneous
7. Add **NDC**

**Note:** The required fields to add a new medication are NDC and Drug Name; other fields are optional.

**Drug Interactions:** Manually added medications are not validated for drug interactions, drug allergies, duplicate therapies or other potential adverse drug events, or formulary compliance.

**Electronic Submission:** Manually added medications are not able to be transmitted electronically to a pharmacy. The script must be printed and given to the patient or phoned into the pharmacy.

**Database Management:** When the comprehensive product listing from Allscripts TouchWorks is updated to include the added product, it is recommended to delete the manually added entries.

This resource is meant to serve as an overview only and should not replace detailed instructions provided to you by your internal or external EHR provider. Always refer or discuss any EHR questions with your practice EHR IT support team.

If you have product-related questions, please contact Novo Nordisk Medical Information: 1-833-457-7455 or [NovoNordiskMedical.com](http://NovoNordiskMedical.com).

**Green IT Strategies and Applications** Bhuvan Unhelkar, 2011-06-23 Bhuvan Unhelkar takes you on an all encompassing voyage of environmental sustainability and Green IT. Sharing invaluable insights gained during two battle tested decades in the information and communication technologies industry, he provides a comprehensive examination of the wide ranging aspects of Green IT from switching off monitors, virtualizing data centers and optimizing processes to bringing attitude change through training and the use of green metrics for reporting. Combining extensive research, literature review, experimentation and decades of practical consulting experience, *Green IT Strategies and Applications Using Environmental Intelligence* is your complete reference for undertaking a successful Green IT transformation. The environmentally responsible business strategies described in this book include motivators and drivers, transformation phases, management of risks, measuring and reporting of carbon compliance with the ISO14000 family of standards and the crucial nexus between Lean and green, resulting in what can be called Environmental Intelligence. This environmentally conscious IT reference delves beyond the corporate responsibilities of organizations in a market driven economy to demonstrate the importance of carbon management as an integral part of good business management. Increasing profits, reducing costs, applying innovations in business, adhering to government standards, process management and the socio cultural aspects of business are all masterfully intertwined with Green IT issues. This book is equipped with case studies from different industrial sectors including hospital service, packaging, product and telecom infrastructure. It provides a complete suite of strategies, applications, tools and techniques that will enable you to establish company wide environmental strategies, a green value system and the forward thinking required to properly position your organization for the low carbon economy on the horizon.
