Energy Forms & Changes Simulation

<http://phet.colorado.edu/en/simulation/energy-forms-and-changes>

In this simulation, you will be able to “see” several different forms of energy and the changes (transfers) that can occur between them. You are also able to work with a system where you can manipulate the energy input, observe the process of electrical energy generation and manipulate the output. Click on the “Energy Systems” tab. We will do all of our work here. Be sure to click the “Energy Symbols” box so the different types of energy will be visible throughout the process.

Getting Familiar With The Options

Please experiment with the different source, generation and output options – there are many combinations to play with – then complete the questions below.
