preoccupation with the figure of the outsider or misfit this is one pre eminent area where his writing transcends purposes of enculturation and paradoxically challenges its own ideological positions His female characters in particular as well as more obviously his anti heroes criminals and other dissidents are shown to question and subvert the moulds in which they are formally cast The novels are confirmed not only as great creative achievements an aspect this book consistently salutes nor simply as a primary site of the evolving Victorian dispensation and revolution of ideas but as a territory that predicts engages and illuminates our own complex modernity Reference is made throughout the volume to other contemporary writings including sociological philosophic and medical discourse to recent cognate theory and to traditions like that of Puritan spiritual autobiography which Dickens adapted to new ends
