Experiments In Holism Theory And Practice In Contemporary Anthropology:

Experiments in Holism Ton Otto, Nils Bubandt, 2011-08-02 Experiments in Holism Theory and Practice in Contemporary Anthropology presents a series of essays that critically examine the ongoing relevance of holism and its theoretical and methodological potential in today's world. Contributions from a diverse collection of leading anthropologists reveal how recent critiques of the holistic approach have not led to its wholesale rejection but rather to a panoply of experiments that critically reassess and reemploy holism. The essays focus on aspects of holism including its utilization in current ethnographic research, holistic considerations in cultural anthropology, the French structuralist tradition, the predominantly English tradition of social anthropology, and many others. Collectively, the essays show how holism is simultaneously central to and problematically a part of the theory and practice of anthropology. Experiments in Holism reveals how contemporary attempts to rescale and retool anthropology entail new ways of coming to terms with anthropology's heritage of holism, seeking to obviate its current excesses while recapturing its critical potential to meet the challenges of our contemporary world.

The Lost Ethnographies Robin James Smith, Sara Delamont, 2019-01-07 This volume explores ethnographic projects that were planned but never happened and reports on the methodological lessons researchers can learn as well as how they can gain fresh energy and social science insight from apparent rejection.

The Palgrave Handbook of Society, Culture and Outer Space James S. Ormrod, Peter Dickens, 2017-09-11 Societies have always been formed in a relationship with the rest of the universe. With rapid developments in satellite communications and imaging, space exploration and tourism, military space technology, and cosmology itself, relationships with outer space are changing. These changes have inspired a wave of critical academic work in recent years, re-examining the history, present, and future of outer space and the place of humans within it. This handbook provides an in-depth exploration of major themes relating to society, culture, and the universe and will inspire and cultivate debate in this exciting and burgeoning area of study for future researchers and theorists. Bringing together scholarship from a range of disciplines including geography, economics, history, political science, sociology, philosophy, science, and technology studies, law, cultural astronomy, anthropology, media studies, literature, psychosocial studies, and art, it closely examines how outer space is socially produced, experienced, perceived, and imagined, and the significance of this for terrestrial social life.

Impermanence Haidy Geismar, Ton Otto, Cameron David Warner, 2022-03-01 Nothing lasts forever. This common experience is the source of much anxiety but also hope. The concept of impermanence or continuous change opens up a range of timely questions and discussions that speak to globally shared experiences of transformation and concerns for the future. Impermanence engages with an emergent body of social theory emphasizing flux and transformation and brings this into a dialogue with other traditions of thought and practice, notably Buddhism, that has sustained a long-lasting and sophisticated meditation on impermanence. In cases drawn from all over the world, this volume investigates the significance of impermanence in such diverse contexts as social death, atheism, alcoholism,

migration ritual fashion oncology museums cultural heritage and art The authors draw on a wide range of disciplines including anthropology archaeology art history Buddhist studies cultural geography and museology This volume also includes numerous photographs artworks and poems that evocatively communicate notions and experiences of impermanence

The Routledge Companion to Actor-Network Theory Anders Blok, Ignacio Farias, Celia Roberts, 2019-06-17 This companion explores ANT as an intellectual practice tracking its movements and engagements with a wide range of other academic and activist projects Showcasing the work of a diverse set of second generation ANT scholars from around the world it highlights the exciting depth and breadth of contemporary ANT and its future possibilities The companion has 38 chapters each answering a key question about ANT and its capacities Early chapters explore ANT as an intellectual practice and highlight ANT's dialogues with other fields and key theorists Others open critical provocative discussions of its limitations Later sections explore how ANT has been developed in a range of social scientific fields and how it has been used to explore a wide range of scales and sites Chapters in the final section discuss ANT's involvement in real world endeavours such as disability and environmental activism and even running a Chilean hospital Each chapter contains an overview of relevant work and introduces original examples and ideas from the authors recent research The chapters orient readers in rich complex fields and can be read in any order or combination Throughout the volume authors mobilise ANT to explore and account for a range of exciting case studies from wheelchair activism to parliamentary decision making from racial profiling to energy consumption monitoring from queer sex to Korean cities A comprehensive introduction by the editors explores the significance of ANT more broadly and provides an overview of the volume The Routledge Companion to Actor Network Theory will be an inspiring and lively companion to academics and advanced undergraduates and postgraduates from across many disciplines across the social sciences including Sociology Geography Politics and Urban Studies Environmental Studies and STS and anyone wishing to engage with ANT to understand what it has already been used to do and to imagine what it might do in the future

Animism in Southeast Asia Kaj Arhem, Guido Sprenger, 2015-11-19 Animism refers to ontologies or worldviews which assign agency and personhood to human and non human beings alike Recent years have seen a revival of this concept in anthropology where it is now discussed as an alternative to modern Western naturalistic notions of human environment relations Based on original fieldwork this book presents a number of case studies of animism from insular and peninsular Southeast Asia and offers a comprehensive overview of the phenomenon its diversity and underlying commonalities and its resilience in the face of powerful forces of change Critically engaging with the current standard notion of animism based on hunter gatherer and horticulturalist societies in other regions it examines the roles of life forces souls and spirits in local cosmologies and indigenous religion It proposes an expansion of the concept to societies featuring mixed farming sacrifice and hierarchy and explores the question of how non human agents are created through acts of attention and communication touching upon the relationship between animist ontologies world religion and the state Shedding new

light on Southeast Asian religious ethnographic research the book is a significant contribution to anthropological theory and the revitalization of the concept of animism in the humanities and social sciences Archaeological Theory in the New Millennium Oliver J. T. Harris, Craig Cipolla, 2017-06-26 Archaeological Theory in the New Millennium provides an account of the changing world of archaeological theory and a challenge to more traditional narratives of archaeological thought It charts the emergence of the new emphasis on relations as well as engaging with other current theoretical trends and the thinkers archaeologists regularly employ Bringing together different strands of global archaeological theory and placing them in dialogue the book explores the similarities and differences between different contemporary trends in theory while also highlighting potential strengths and weaknesses of different approaches Written in a way to maximise its accessibility in direct contrast to many of the sources on which it draws Archaeological Theory in the New Millennium is an essential guide to cutting edge theory for students and for professionals wishing to reacquaint themselves with this field Perspectives on Knowledge Communication Jan Engberg, Antoinette Fage-Butler, Peter Kastberg, 2023-08-25 This collection elaborates an innovative analytical framework for knowledge communication bringing together insights from a range of professional settings to highlight how a cross disciplinary approach can promote a new view of knowledge that emphasizes constructivist and cognitivist perspectives The volume seeks to draw connections between different disciplines traditionally disparate studies of knowledge communication defined here as the communication of domain knowledge between experts of the same discipline experts of different disciplines or non experts with an interest in developing expert knowledge Featuring work from scholars across linguistics corporate communication and sociology on diverse professional environments chapters focus on one of three central aspects in the communication of expert knowledge the textual carrier of the interaction the roles and relationships between parties in these interactions and the contexts in which the texts and communication occur Taken together the collection elucidates the value of an approach that supposes that expertise is co created in interaction under the conditions of human cognitive systems and that knowledge asymmetries can offer both challenges and opportunities to better understand and generate new forms of communication and specialized knowledge This book will be of interest to scholars interested in language and communication professional communication organizational communication and sociology of knowledge Knowledge Communication Jan Engberg, Antoinette Fage-Butler, Peter Kastberg, 2023-08-25 **Oceania** Alfred Reginald Radcliffe-Brown, Raymond Firth, Adolphus Peter Elkin, 2014 **Sociological Abstracts** Leo P.
