Existence And The Good Metaphysical Necessity In Morals And Politics:

Existence and the Good Franklin I. Gamwell, 2012-01-02 Morals and politics depend on a metaphysical backing All reality is marked by certain necessary features and a divine purpose inherent in all reality defines the good to which all human life should be directed These are bold assertions in a climate where the credibility of metaphysics is widely denied Indeed for the past two centuries Western philosophy has been marked by a consensus that questions about moral and political life should be considered separately from questions about ultimate reality In this challenging work Franklin I Gamwell defends metaphysical necessity against both modern and postmodern critiques The metaphysics vindicated is not the traditional form both critiques typically have in view however Instead Gamwell outlines a neoclassical project for which Alfred North Whitehead and Charles Hartshorne are the main philosophical resources As it maintains the significance of theistic metaphysics the book makes no appeal to religious authority but solely to common human experience and on this basis articulates principles of human purpose and democratic justice **On Metaphysical Necessity** Franklin I.

Gamwell, 2020-08-01 In this collection of essays Franklin I Gamwell offers a defense of transcendental metaphysics especially in its neoclassical form and builds a case for its importance as a tool for addressing abiding problems in philosophical theology and morality including talk about God human fault moral decision and the relationship of politics and religious freedom In Part I Gamwell argues against Kant and a wide range of contemporary philosophers for the validity of transcendental metaphysics designated in the strict sense He engages with Aquinas Schleiermacher Augustine and Reinhold Niebuhr to argue that neoclassical metaphysics for which the divine whole is itself temporal or forever self surpassing provides a more coherent account of God than does classical metaphysics for which the divine whole is completely eternal In Part II Gamwell looks at transcendental metaphysics designated in the broad sense In particular he takes up the moral opportunity with which humans are presented and argues that the moral law depends on a comprehensive good that is a good defined metaphysically in the strict sense He then offers an extended discussion of the relation between transcendental metaphysics and morality and explores Ronald Dworkin's view of the relationship between democracy and religion the question of whether religious activities are properly exempted from generally applicable laws and the constitutional debate about national and states rights **Process Philosophy and Political Liberalism** Daniel A. Dombrowski, 2019-05-03

Daniel A Dombrowski brings together the thought of the 20th century philosophy's greatest political liberal John Rawls with the thought of the great process philosophers Alfred North Whitehead and Charles Hartshorne He shows that political liberalism is intimately linked with process philosophy renaming it process liberalism He justifies this process liberalism in contrast to four potentially troublesome sources or influences metaphysics religion right wing politics and left wing politics Dombrowski engages a series of interlocutors and alternative positions including Franklin I Gamwell Timothy D Snyder Martin Heidegger and Karl Marx In conclusion he offers a compelling intricate and resourceful argument for nonhuman

animal rights based on Rawlsian principles which in turn forms the basis of a future environmental ethics The Science of Right in Leibniz's Moral and Political Philosophy Christopher Johns, 2013-08-15 Studies of Gottfried Leibniz's moral and political philosophy typically focus on metaphysical perfection happiness or love In this new reading of Leibniz Christopher Johns shows that it is based on a science of right Based on the deontic concepts of jus right and obligation this science of right is established in Leibniz's early writings on jurisprudence and depended on throughout several of his major late writings Johns shows that the moral rightness of an action is grounded in the rights and obligations derived from the agent's capacity for freedom This new interpretation of Leibniz's moral philosophy compares Leibniz's positions with Grotius Pufendorf Hobbes Locke and Kant Providing a comprehensive examination of Leibniz's most important writings on natural right John's argues that Leibniz properly understood provides a compelling account of the grounds of morality and of political institutions an account relevant to present philosophical debates Leibniz: Political Writings Gottfried Wilhelm Leibniz, 1988-11-10 Leibniz's political and ethical writing long has been neglected and with this new edition Professor Riley makes available the most representative pieces from Leibniz's political theory This new edition specially prepared for this series is the first to make a considerable number of Leibniz's writings available in English and includes three previously unpublished manuscripts a selection of political letters an introduction notes and a critical biography **Political Writings** Gottfried Wilhelm Freiherr von Leibniz, 1988 Leibniz's political and ethical writing long has been neglected and with this new edition Professor Riley makes available the most representative pieces from Leibniz's political theory This new edition specially prepared for this series is the first to make a considerable number of Leibniz's writings available in English and includes three previously unpublished manuscripts a selection of political letters an introduction notes and a critical biography Proceedings and Addresses of the American Philosophical Association American Philosophical Association, 2010 List of members in v 1 **Spinoza's Political and Ethical Philosophy** Robert Alexander Duff, 1903 **Essays on sacred subjects, for general readers** William Russell (M.A.), 1889 *Light*, 1910 *The Christian Doctrine of Sin* Julius Müller, 1877 **Christian Belief Interpreted by Christian Experience** Charles Cuthbert Hall, 1905 *Principles of Morality* Christopher Sverre Norborg, 1938 **The Encyclopædia Britannica** Hugh Chisholm, James Louis Garvin, 1926 *The Catholic Encyclopedia* Charles George Herbermann, 1913 *Encyclopaedia of Religion and Ethics* James Hastings, John Alexander Selbie, Louis Herbert Gray, 1917 **Leibniz a Paris (1672-1676)**, 1978 **Leibniz à Paris: La philosophie de Leibniz**, 1978 Critique of Patriarchal Reason Arthur Evans, 1997 A philosopher and an artist join hands in this book to reclaim philosophy as an art Their book shows how patriarchal biases have infected formal logic higher mathematics and the scientific method It demonstrates the harmful impact of these biases on women gay people artists indigenous societies and the natural environment Among the many thinkers discussed is Ludwig Wittgenstein A surprising connection is uncovered between Wittgenstein's theories of logic and language on one hand and his conflicted
