Essentials of Marketing Jr. Perreault, William, Joseph Cannon, E. Jerome McCarthy, 2009-10-21 This book is about marketing and marketing strategy planning And at its essence marketing strategy planning is about figuring out how to do a superior job of satisfying customers This author team takes that point of view seriously and believes in practicing what they preach Your customers can trust that this new edition of Essentials of Marketing 12e and all of the other teaching and learning materials that accompany it will satisfy your customers needs Building on Pioneering Strengths This author team pioneered an innovative structure using the four Ps with a managerial approach for the introductory marketing course It quickly became one of the most widely used business textbooks ever published because it organized the best ideas about marketing so that readers could both understand and apply them The unifying focus of these ideas is on how to make the marketing decisions that a manager must make in deciding what customers to target and how best to meet their needs Over many editions of Basic Marketing and Essentials of Marketing there have been constant changes in marketing management and the marketing environment Some of the changes have been dramatic and others have been subtle As a result the authors have made ongoing changes to the text to reflect marketing s best practices and ideas What s different about Basic Marketing The success of this franchise is not the result of a single strength or one long lasting innovation Other text books have adopted the four Ps framework and the Perreault author team has continuously improved the book The text s four Ps framework managerial orientation and strategy planning focus have proved to be foundation pillars that are remarkably robust for supporting new developments in the field and innovations in the text and package 1 Essentials of Marketing teaches students analytical abilities and how to do it skills that prepare them for success The author team has deliberately included a variety of examples explanations frameworks models classification systems cases and how to do it techniques that relate to our overall framework for marketing strategy planning Similarly the Marketing Plan Coach on the Student CD and the text website helps students see how to create marketing plans Taken together these items speed the development of marketing sense and enable the student to analyze marketing situations and develop marketing plans in a confident and meaningful way They are practical and they work 2 As opposed to many other marketing text books the authors emphasize careful integration of special topics Some textbooks treat special topics like relationship marketing international marketing services marketing marketing and the Internet marketing for nonprofit organizations marketing ethics social issues and business to business marketing in separate chapters The authors deliberately avoid doing that because they are convinced that treating such topics separately leads to an unfortunate compartmentalization of ideas 3 The comprehensive package of materials gives your customer the flexibility to teach marketing their way or for the student the ability to learn marketing their way
