Essential Values Based Practice Clinical Stories Linking Science With People:

Essential Values-based Practice K. W. M. Fulford, Ed Peile, Heidi Carroll, 2012 This book will help clinicians acquire and develop the processes and skills of values based practice The aim of most patient clinician consultations is to improve health outcomes Often they succeed and patients are satisfied and empowered However some consultations are unsatisfactory and result in failure to improve health outcomes and dissatisfaction on the part of patients carers or clinicians When consultations fail to achieve the desired results the cause is not usually a failure of evidence based practice Today's clinicians are trained in evidence based medicine educated updated and appraised The most likely reason why things go wrong is a failure of values based practice not ascertaining the relevant values perspectives and acting on them in a coherent and purposeful manner If you rehearse and practise the elements of values based practice detailed in this book you will find your consultations more personally rewarding and your patients are likely to derive more benefit

Values and Ethics in Mental Health Alastair Morgan, Anne Felton, Bill Fulford, 2015-11-02 Mental health is the one area of health care where people are often treated against their will with the justification that it is in their own interest This raises significant ethical questions and value dilemmas questions of autonomy human rights power and treatment An understanding of how values matter is of vital importance across all disciplines working within the mental health field This book provides a comprehensive and exploratory text for practitioners students and all those interested in developing a knowledge of both ethics and the wider framework of values based practice It is unique in being fully co written by authors representing both service user and service provider perspectives This exciting new text will enable the mental health practitioner to work more co productively with service users within a humane and just approach to care With an emphasis on rights based compassionate care throughout this book Tackles the issues of how mental health is understood through key theoretical debates about mental distress values and labelling Encourages readers to think critically about their understanding of key issues such as recovery autonomy power knowledge diagnoses and empathy Draws on a wide range of case examples and exercises to help readers deepen their knowledge of values based practice and ethics in mental health

Global Mental Health and Neuroethics Dan J. Stein, Ilina Singh, 2020-01-13 Global Mental Health and Neuroethics explores conceptual ethical and clinical issues that have emerged with the expansion of clinical neuroscience into middle and low income countries Conceptual issues covered include avoiding scientism and skepticism in global mental health integrating evidence based and value based global medicine and developing a welfarist approach to the practice of global psychiatry Ethical issues addressed include those raised by developments in neurogenetics cosmetic psychopharmacology and deep brain stimulation Perspectives drawing on global mental health and neuroethics are used to explore a number of different clinical disorders and developmental stages ranging

from childhood through to old age Synthesizes existing work at the intersection of global mental health and neuroethics Presents the work of leading practitioners of global mental health and neuroethics who address clinical issues Looks at clinical decision making in settings with non Western values and customs Covers patient empowerment human rights cognitive enhancement and more

Oxford Textbook of Old Age Psychiatry Tom Denning, Alan Thomas, Robert Stewart, John-Paul Taylor, 2021 Part of the authoritative Oxford Textbooks in Psychiatry series Oxford Textbook of Old Age Psychiatry Third Edition has been thoroughly updated to reflect the developments in old age psychiatry since publication of the Second Edition in 2013 and remains an essential reference for anyone interested in the mental health care of older people

Psychiatry Reborn: Biopsychosocial psychiatry in modern medicine Will Davies, Julian Savulescu, Rebecca Roache, J. Pierre Loebel, 2020-10-21 Psychiatry Reborn Biopsychosocial Psychiatry in Modern Medicine is a comprehensive collection of essays by leading experts in the field and provides a timely reassessment of the biopsychosocial approach in psychiatry Spanning the sciences and philosophy of psychiatry the essays offer complementary perspectives on the ever more urgent importance of the biopsychosocial approach to modern medicine The collection brings together ideas from the series of Loebel Lectures by world leaders in the field of psychiatry and associated Workshops at the University of Oxford including revised versions of the Lectures themselves and a wide range of related commentaries and position pieces With contributions from psychiatry psychology neuroscience and philosophy the book provides the most comprehensive account to date of the interplay between biological psychological and social factors in mental health and their ethical dimensions The 23 chapters of this multi authored book review the history and place of the biopsychosocial model in medicine and explore its strengths and shortcomings In particular it considers how understanding this interplay might lead to more effective treatments for mental health disorders as developments in genomic and neurobiological medicine challenge traditional conceptions and approaches to the research and treatment of mental health disorders The book explores the challenges and rewards of developing diagnostic tools and clinical interventions that take account of the inextricably intertwined bio psycho social domains and the ethical implications of the conceptualization It concludes with chapters drawing together the book's range of expertise to propose a best conception of the model and how it might be adopted going forward in an age of exponentially increasing technological advances and of integrated collaborative care The volume is intended to present the BPS model as it stands today in the academy the lab and the clinic and to start to address the challenges and potential that the model has for each

Depression Charles Foster, Jonathan Herring, 2017-09-08 Depression is amorphous It defies easy generalization and eludes medical and legal categories Is it part of the self or its predator Can a sufferer be held responsible for their actions This edited collection provides a holistic study of a protean illness If the law is to regulate the lives of those who suffer from depression it is vital that lawyers understand the condition Drawing upon a wide ranging expertise this volume looks at depression from four viewpoints that of the sufferer the clinician the ethicist and the lawyer Topics covered include the

cultural history of depression causes epidemiology and diagnosis the autonomy debate criminal responsibility public health law depression in the workplace depression and children and assisted suicide First hand accounts from sufferers are followed by contributions from clinicians who say what depression is outline its demography and therapeutic options and indicate the legal and ethical problems that trouble them the most The essays then go on to explore legal and ethical questions in depth This collection is essential reading for lawyers seeking a broader understanding of depression and non lawyers seeking an insight into the difficulty law has engaging with the condition **International Abstracts of Human Resources** ,2006
