Foreign Language Learning With Digital Technology:

Brave New Digital Classroom Robert J. Blake, Gabriel Guillén, 2020-02-20 Robert Blake now with Gabriel Guillén updates his successful book 1st ed 2008 2nd ed 2013 on how to teach foreign languages using technology Brave New Digital Classroom touches on all of the key concepts and challenges of teaching with technology focusing on issues specific to FLL or L2 learning and CALL Originally referred to as computer assisted language learning CALL has come to encompass any kind of learning that uses digital tools for language learning This edition reframes the conversation to account for how technology has been integrated into our lives Blake and Guillén address the ways technology can help with L2 how to choose the right digital tools how to use those tools effectively and how technology can impact literacy and identity The book is primed for use in graduate courses terminology is in bold and a comprehensive glossary is included each chapter finishes with a short list of references for further reading on the topic and discussion questions The authors provide short interview videos free via GUP website to enhance discussions on each chapter's topic *Foreign Language Learning with Digital Technology* Michael Evans, 2009-04-07 Provides a sustained and in depth qualitative analysis of the use of digital technology within the field of foreign language learning drawing on empirical evidence **Brave New Digital Classroom** Robert J. Blake, 2008 Brave New Digital Classroom deftly interweaves results of pedagogical research and descriptions of the most successful computer assisted language learning CALL projects to explore how technology can best be employed in the foreign language curriculum to assist the second language acquisition process Directed to all language teachers whether at the school or the postsecondary level with or without prior experience this book focuses on how to use new technologies effectively Blake urges teachers to move beyond a simple functional competence of knowing how to use the tools toward first a critical competence realizing what the various tools are good for and ultimately a rhetorical competence of knowing how the tools will help transform the learning environment This book examines the effective use of a range of technologies from Internet sites through computer mediated communication such as synchronous chatting and blogs to distance learning At the end of each chapter questions and activities demonstrate the interactionist learner centered pedagogy Blake espouses An invaluable reference for experienced researchers and CALL developers as well as those of limited experience Brave New Digital Classroom is also ideal for graduate level courses on second language pedagogy It will also be of interest to department chairs and administrators seeking to develop and evaluate their own CALL programs *English Learning in the Digital Age* Shuang Zeng, 2018-11-23 Moving beyond the Web 2.0 and digital native rhetoric this book addresses the complex experiences of learners of English as a foreign language EFL in a world embedded with interactive and participatory technologies Adopting a sociocultural perspective it investigates EFL learners' behaviours concerning digital technology and guides exploration into their contextually mediated choices and learning practices in the 2.0 era The argument is developed on the basis of the findings of a mixed sequential study that focused on 1485 Chinese undergraduates use and non use of

online tools and applications outside the English classroom Particular attention is paid to the role of context and agency when understanding their learning choices and behaviours in the context of digital technology In particular the book acknowledges the explanatory power of agency in the minority instances of good practices among these EFL learners At the same time it demonstrates that for most learners use of the current web is limited and mostly non interactive The barriers to 2 0 transfer are largely contextual and the so called communicative opportunities and participatory culture in particular did not fit into the learners sociocultural context of language learning Overall the compelling argument proposes that the technology facilitated changes in EFL practices are a bottom up process that is taking place in day to day situations and constrained by the learning context within which the learner is situated Based on these arguments the book provides a framework that challenges the existing beliefs about language learning with online technology and that contributes to our understanding of how context mediates EFL learners behaviours surrounding digital technologies It is a valuable resource for teachers researchers and policy makers providing them with insights into using digital technology to stimulate good learning practices outside the classroom

Brave New Digital Classroom Blake, Claire Kramsch, 2013-12-15 Brave New Digital Classroom examines the most effective ways to utilize technology in language learning The author deftly interweaves the latest results of pedagogical research with descriptions of the most successful computer assisted language learning CALL projects to show how to implement technology in the foreign language curriculum to assist the second language acquisition process Directed at elementary to postsecondary language teachers the book is ideal for graduate level courses on pedagogy and an invaluable reference for experienced researchers CALL developers and administrators This new enhanced ebook edition features the full text plus eight videos including three talks by the author an interview with Claire Kramsch on using the internet to teach culture Phil Hubbard on criteria for evaluating CALL software Rick Kern discussing telecollaboration and CMC exchanges with two students Gabriel Guill n on tandem learning and social networks and Paul Rama on games and gaming

Fandom Language Learning Jieun Kiaer, Alfred W. T. Lo, 2025-02-06. Standing at the intersection of fan culture, digital technology and language learning, this book advocates for a transformative shift in language education in the AI age. Introducing the concept of fandom language learning, it illustrates how enthusiasm for specific interests motivates fans to learn languages, resulting in immersive and personalised learning experiences. Tracing the evolution of digital platforms shows how this has become possible thanks to their pivotal role in transforming language learning from a solitary traditional endeavour into a vibrant community driven practice. The authors examine the psychological underpinnings of fandom language learning and how emotional engagement and cultural immersion can help to foster motivation. They also weigh the impact of social media and AI on language learning, emphasising the potential for these technologies to smooth the way for more interactive engaging

and effective language education Through a translanguaging approach they also give new perspectives on the ways in which digital platforms enable learners to transcend linguistic boundaries and how fandom learners can harness creative expression and multilingual engagement Building on these ideas Fandom Language Learning also sets out practical guidance for educators on how to use fandom culture to motivate foreign language learning and increase students Foreign Language Enjoyment FLE envisioning a future where language education is not only more aligned with learners passions but also more responsive to the demands of a digital multilingual world

Digital Technologies in the English as a Foreign Language (EFL) Classroom Hannah Wörner, 2021-02-16 Seminar paper from the year 2020 in the subject Didactics for the subject English Miscellaneous grade 1 0 University of Frankfurt Main course Digital Media in the EFL classroom language English abstract How can the two fields of English as a foreign language further referred to as EFL and the usage of Digital Technologies DT in school be possibly combined and why should there be a correlation between learning English and using DT In the following term paper this question will be investigated carefully After that there will also be an example of a concrete lesson in the EFL classroom using DT and in the end there will be a reflection of this seminar The KIM study 2018 shows that out of 1 231 participants in the age of 6 to 13 98% have access to the internet and 97% of them own a smartphone This means that nearly everybody is in daily contact with Digital Media even children in primary school First of all there needs to be a differentiation between Digital Media and Digital Technology The term Digital Media includes created products and the digital tools which were used to produce them while it also includes the transport of information Digital Technologies is a more generic term which includes everything covered by Digital Media Therefore Digital Technologies are composed by digital devices like tablets computers or smartphones as well as digital resources which provide information of any kind in a digital format That is why in the following it will only be referred to the term of Digital Technologies and not Digital Media Just like Digital Technologies in the following described as DT the English language plays an important role in many people s lives as well English is not only the language spoken by the most people all over the world but also the one which is geographically distributed most widely In most of these countries English is the official language while in other countries it is used for educational or business purposes Because of its importance it is crucial for young students to learn English as a foreign language in school Before reaching the age of 10 a time frame which is called window of opportunity emerges in which children tend to be most receptive regarding language learning Through English lessons in primary school the school system uses this opportunity According to Maras and Ametsbichler the English lessons should follow a competence orientation which means that it should provide many opportunities to foster competencies like listening speaking reading writing speech acting method related competencies as well as intercultural competencies
