Forensic Practice In The Community Issues In Forensic Psychology:

Forensic Practice in the Community Zoë Ashmore, Richard Shaker, 2014-08-01 Forensic practice in the community is a neglected subject. There are many books looking at forensic work in secure settings such as prisons or hospitals but very little has been written about forensic practice in the community. This book describes the current and exciting developments in this area for both young people and adults by leaders in their field. It is in the community where interventions with those who have offended are all ultimately tested. Bringing together a range of experts from both the practitioner and academic community, this book covers multisystemic therapy for families, sexual and violent offending, learning disabilities, substance misuse, risk assessment, prediction and management, personality disorder, offenders, resettlement following custody, desistance of criminal behaviour, community interventions. Beginning with an overview of forensic practice in the community, the book addresses policy, practice and ethical issues, focusing on the specific dilemmas facing practitioners and providing an analysis of international perspectives. It describes how to meet the challenge of significantly diverting and reducing the prison population through more effective community intervention with adults and young people and also makes suggestions for the future. This book offers a range of recent case studies, has descriptions of new areas of community practice by those working or studying in that area and covers cutting edge developments in practice and policy. It will be of interest to academics, practitioners and students in forensic psychology as well as social workers, probation officers, youth offending officers, police officers, criminal justice agencies and mental health professionals. *Clinical Forensic Psychology and Law* Kaitlyn McLachlan, 2019-01-15 *Clinical Forensic Psychology and Law* is a compilation of recent and classic articles providing comprehensive coverage of the field of clinical forensic psychology and law. Selected articles sample the major areas of the discipline including criminal and civil forensic assessment, forensic treatment, youth assessment and intervention and professional and ethical issues in forensic practice. The volume is designed for use by scholars, graduates and undergraduates in psychology and law schools. *The Journey from Prison to Community* Jo Shingler, Jennifer Stickney, 2023-08-31 *The Journey from Prison to Community: Developing Identity, Meaning and Belonging with Men in the UK* provides a practical guide for practitioners working with men to successfully make the transition between prison and the community. This transition presents significant challenges, especially for those who have served many years in prison, for those who have experienced multiple cycles of release, recall, for those whose personality traits make it harder for them to build relationships and cope with strong emotions, and for those whose lives have been characterised by trauma, chaos, crime and institutionalisation. Drawing on the authors' clinical expertise and the lived experiences of real service users alongside the latest research in the field, the book identifies key issues in transition and explores the impact of these issues. Crucially, it provides guidance, tools and support to professionals working with men in the UK to build a crime-free, socially integrated and meaningful life after incarceration, featuring real-life stories of those who have made the transition. This is an essential read.
