Marilyn Heatley, 2015-12-03 Sailing across the oceans in a yacht was not something Marilyn had thought of until the opportunity arrived As a sailing novice and at the age of 56 her adventure began This book is an account of her experiences from a female perspective Living in close quarters with her partner and two friends on a boat threw up some interesting challenges How did she cope with fear in the face of danger with the long ocean passages and homesickness How did her relationship survive In the book you will find the answers and also find out how both couples faced challenges together [The Freedom Riders Across Borders](#) Barbara Lüthi, 2022-08-30 The Freedom Riders

Across Borders Contentious Mobilities provides the first comprehensive transnational historical analysis of the Freedom Rides It explores the transnational history of these social movements and the struggles for the right to mobility and other civil rights in the United States of America Australia and Palestine between 1961 and 2011 This book makes a significant contribution to the transnational studies of social movements and the burgeoning field of mobility studies by investigating the specific constellations of mobility as historically and geographically specific formations of movement as well as investigating how the images ideas and strategies of Freedom Riders were adapted translated and moved across time and space Foremost this book speaks to the pressing questions of the past and present concerning the politics and inequalities of mobilities impacting different social groups in different ways From a historical perspective it gives answers to the intensified interest and questions concerning the dynamics techniques and contentious politics of social movements in a globalized environment The book details how the question of mobility has come to constitute political conflict and protest over norms restrictions and representations It shows not only that mobility is a differentially accessed resource which shapes and is shaped by political processes but also that contestation is an equal part of forming mobility The book identifies vehicles as a mobile site of contestation and in the context of the Freedom Rides as a site of strategic political action In doing so Lüthi makes a persuasive case for mobility to be given a central place in the study of progressive social movements As such this book will be of great interest to researchers in a number of disciplines including history geography and sociology **Fullness of Joy**
