

Conquering the Mental Game

FEARLESS GOLF

A golfer in a dark shirt and pants is captured in the middle of a golf swing, holding a club. The background is a dramatic sky with dark, swirling clouds and a bright, glowing light source, possibly the sun or moon, creating a lens flare effect. The overall mood is intense and powerful.

Be the Pine, Be the Ball Paul J. Zingg, 2018-04-27 Focusing on the landscapes and memory of golf and examining the game's nature and appeal, this collection of seventy-two haiku poems and essays aims to lead readers to a fuller appreciation of the culture and history of golf and a deeper awareness of a player's place in the game. *Be the Pine, Be the Ball* also reveals the compelling beauty and power of haiku, the most popular poetic form in the world. Through the brevity of its style, precise language and ability to reveal how ordinary moments and elements of our lives are pathways to a better understanding of ourselves and the world around us, haiku can have both a meditative and consequential effect on the reader. A key to the connection between haiku and golf is that both foster powers of concentration and detailed observation with a related reduction of distractions. Both seek to cultivate a more tranquil and disciplined mind and to translate that condition into how a life is lived and a game is played.

Golf's Holy War Brett Cyrgalis, 2021-05-18 The world of golf is at a crossroads. As technological innovations displace traditional philosophies, the golfing community has splintered into two deeply combative factions: the old school teachers and players who believe in feel, artistry and imagination and the technical minded who want to remake the game around data. In *Golf's Holy War*, Brett Cyrgalis takes readers inside the heated battle playing out from weekend hackers to PGA Tour pros. At the Titleist Performance Institute in Oceanside, California, golfers clad in full body sensors target weaknesses in their biomechanics while others take part in mental exercises designed to test their brain's psychological resilience. Meanwhile, coaches like Michael Hebron purge golfers of all technical information, tapping into the power of intuitive physical learning by playing rudimentary games. From historic St Andrews to manicured Augusta, experimental communes in California to corporatized conferences in Orlando, William James

to Ben Hogan to theoretical physics the factions of the spiritual and technical push to redefine the boundaries of the game
