House of Representatives,2011      **A Literacy Coach's Playbook** Adam Brieske-Ulenski,Michelle J. Kelley,2025 This book introduces the Clinical Literacy Coaching Framework CLCF an exciting new approach to literacy coaching and leadership that is aligned with the International Literacy Association's standards for literacy professionals Grounded in research and experiences from the field the CLCF includes coaching practices and techniques adapted from teaching hospitals that can be applied in K 12 school settings It differs from other literacy coaching models because it provides practical ways to establish buy in and distribute leadership among all colleagues Various tools resources links to videos and examples of applications in schools will help coaches differentiate their work and develop colleagues collective efficacy for literacy instruction and leadership This timely text reflects the new expectations and responsibilities that educators are experiencing in today's schools and will leave readers feeling empowered and equipped to support their students and teachers A Literacy Coach's Playbook is a useful resource that coaches will continue to return to as they develop their school's leadership team and transform literacy instruction Book Features Coaching responsibilities and tasks annotated with ILA standards Guiding Questions at the beginning of each chapter Pause Ponder and Note opportunities throughout the text to orient readers

Spotlights on Coaching at the elementary and secondary levels demonstrate concepts in action Figures and appendices provided throughout to support the implementation of the CLCF and coaching work The end of each chapter offers a Reflect and Self Assess section that includes self efficacy scale items to support the coach leader s confidence in performance of coaching tasks

**Exploring the Mathematical Education of Teachers Using TEDS-M Data** Maria Teresa Tatto,Michael C. Rodriguez,Wendy M. Smith,Mark D. Reckase,Kiril Bankov,2018-08-16 This book uses the publicly available TEDS M data to answer such questions as How does teacher education contribute to the learning outcomes of future teachers Are there programs that are more successful than others in helping teachers learn to teach mathematics How does the local and national policy environment contribute to teacher education outcomes It invites readers to explore these questions across a large number of international settings The importance of preparing future mathematics teachers has become a priority across many nations Across the globe nations have allocated resources and expertise to this endeavour Yet in spite of the importance accorded to teacher education not much is known about different approaches to preparing knowledgeable teachers and whether these approaches do in fact achieve their purpose The Mathematics Teacher Education and Development Study TEDS M is the first and to date the only cross national study using scientific and representative samples to provide empirical data on the knowledge that future mathematics teachers of primary and secondary school acquire in their teacher education programs The study addresses the central importance of teacher knowledge in learning to teach mathematics by examining variation in the nature and influence of teacher education programs within and across countries The study collected data on teacher education programs structure curriculum and opportunities to learn on teacher educators characteristics and beliefs and on future mathematics teachers individual characteristics beliefs and mathematics and pedagogical knowledge across 17 countries providing a unique opportunity to explore enduring questions in the field
