**Feminist Methodologies for Critical Researchers** Joey Sprague, 2005-08-25 This text teaches students how standard methods can be adapted toward critical ends by thinking about the links between epistemology and methodology Joey Sprague's treatment of qualitative and quantitative methods shows how both can be used effectively by progressive researchers She traces how the social organization of the academy has produced a bias against feminist methodology and proposes a program to overcome these limitations *Feminist Methodologies for Critical Researchers* Joey Sprague, 2005

This text teaches students how standard methods can be adapted toward critical ends by thinking about the links between epistemology and methodology Joey Sprague's treatment of qualitative and quantitative methods shows how both can be used effectively by progressive researchers She traces how the social organization of the academy has produced a bias against feminist methodology and proposes a program to overcome these limitations *The Gender of Crime* Dana M. Britton, Shannon K. Jacobsen, Grace E. Howard, 2017-08-03 The Gender of Crime introduces readers to how gender shapes our understanding of every aspect of crime from defining what crime is to governing how crime is punished The second edition of this award winning book maintains the accessible reader friendly narrative of the first edition with key updates and new material throughout including increased focus on the intersections of race class gender and sexuality in crime and punishment more attention to LGBTQ issues additional coverage of gender and crime on college campuses and more This dynamic and provocative book illustrates how gender is central to the definition prosecution and sentencing of crimes that it shapes how victimization is experienced and understood and how it structures the institutions of the criminal justice system and the experiences of workers within that system The Gender of Crime demonstrates that crime victimization and crime control are never generic they are instead produced and experienced by gendered and raced and classed and sexualized actors within contexts of social inequality This book highlights key concepts and encourages readers to think through a range of compelling real life examples from school violence to corporate crime The second edition of The Gender of Crime is essential reading for students of gender and sexuality sociology criminology and criminal justice **Gender and the**

**Politics of Possibilities** Manisha Desai, 2009 Gender and the Politics of Possibilities explores the lesser known side of globalization beyond the effects of national governments and multinational corporations by taking a look at grassroots movements by women that have and continue to shape globalization today Manisha Desai highlights the significant role that women play in cross border trade in Africa in transborder activism on issues that affect women and in cultural change and social justice **Gender and Families** Scott Coltrane, Michele Adams, 2008-05-21 Gender and Families uses cultural events from our everyday lives to explore how families and gender are mutually produced and inseparably linked In this updated second edition Coltrane and Adams continue to demystify the complexities of gender and family with discussions of

**Gender and Food** Shelley L. Koch, 2019-02-22 Gender and Food A Critical Look at the Food System synthesizes existing

theoretical and empirical research on food gender and intersectionality to offer students and scholars a framework from which to understand how gender is central to the production distribution and consumption of food     **Changing Gender Relations, Changing Families** Oriel Sullivan, 2006 Based on cross national data from the mid 1960s to the late 1990s

Why is feminist research carried out in international relations IR What are the methodologies and methods that have been developed in order to carry out this research *Feminist Methodologies for International Relations* offers students and scholars of IR feminism and global politics practical insight into the innovative methodologies and methods that have been developed or adapted from other disciplinary contexts in order to do feminist research for IR Both timely and timeless this volume makes a diverse range of feminist methodological reflections wholly accessible Each of the twelve contributors discusses aspects of the relationships between ontology epistemology methodology and method and how they inform and shape their research This important and original contribution to the field will both guide and stimulate new thinking *Knowledges, Practices and Activism from Feminist Epistemologies* Eulalia Pérez Sedeño, Lola S. Almendros, S. García Dauder, Esther Ortega Arjonilla, 2019-07-15

Science Technology and Gender studies STG include the different approaches to feminist epistemologies their current debates and also the theoretical analysis of different scientific controversies around cases that involve women's bodies and health sex gender and techno scientific practices These studies are linked to the demand for another type of hybrid knowledge that revalorizes the practices the embodied experience and care as well as the subject positions traditionally excluded from the scientific community The diversity of voices has allowed a plural knowledge in techno scientific practices to emerge as well as the identification of gender class sexuality race functional diversity inequalities for example This has made possible a bioethical reflection which is not understood as abstract normative principles but linked to the practices and lived experience Divided into three parts this edited volume presents original and insightful research on STG from feminist epistemologies The first part addresses fundamental theoretical questions that feminist epistemologies raise and how they confront complex social problems such as gender based violence The second part deals with research practices or processes explicitly showing the relationship between science and policy Finally the third part presents some case studies that show the multidimensionality of the problems and the depth and richness of these analyses The contributions included in the volume present original and in depth research on local case studies within Spain Not only challenging the hegemonic and global perspectives on different issues this volume also opens up and enables discussion of these global narratives This edited volume is a useful tool for researchers and university students in multiple fields such as gender studies feminist epistemologies STS cultural history or transgender studies *Feminist Research Methods* Joyce McCarl Nielsen, 2019-04-02

Feminist inquiry has affected the nature of research in all the social and natural sciences over the past decade but much contemporary writing on feminist methods simply offers a critique of traditional methods This book one of the first to offer a practical guide to conducting research informed by feminist methods is based on the premise that abstract discussion of methodological issues is most meaningful and instructive in conjunction with examples of actual research A comprehensive and far reaching introduction defines feminist research and explains how it

differs from traditional methodology in the social and natural sciences In a beautifully clear style Dr Nielsen guides the reader through a number of philosophy of science history of science and sociology of knowledge issues that are fundamental to understanding the nature of scientific method in its traditional sense and the role of feminist scholarship in the larger intellectual movement that is transforming and redefining scientific methodology Part One presents the best of feminist commentary on both feminist and traditional methods Part Two consists of readings that illustrate particular feminist methods including oral history linguistic analysis feminist anthropology informed by feminist literary criticism and reinterpretation and reanalysis of empirical data from a feminist perspective Substantive issues addressed in the readings include women s suffrage in the United States women as shamans sex differences in suicide rates sex differences in cognitive abilities gender dominance through conversation gender and public policy and public private sphere dichotomies
