Antoun, *Anthropology of Migration and Multiculturalism* Steven Vertovec, 2013-09-13 The field of anthropology of migration and multiculturalism is booming Throughout its hundred odd year history studies of migration and diverse or plural societies have arguably been both marginal and central to the discipline of Anthropology However recent years have witnessed the rapid growth of anthropological studies concerning these topics This has particularly been the case since the 1970s when anthropologists developed a keen interest in the subject of ethnicity especially in post migration communities Since the 1990s migrant transnationalism has become one of the most fashionable topics There is still much to do in research and theory surrounding this field not least with regard to contemporary public debates around multiculturalism immigration and integration policy This book presents essays pointing toward a number of possible new directions both theoretical and methodological for anthropological inquiry into migration and multiculturalism including innovative ways of examining diversity discourses urban conditions social complexities scales of analysis transnational marriages entangled politics and interwoven cultures This book was published as a special issue of the Ethnic and Racial Studies *New Directions in the Anthropology of Migration and Multiculturalism* , 2007
