computational modeling of slurries including an in depth parametric study of slurry pump wear and operating cost The authors highlight methods for achieving energy efficiency which are crucial to the effective use of scarce resources given the foundational role of slurry transport systems in the energy intensive industries of mining and dredging Key concepts are supported with case studies and worked examples Slurry Transport Using Centrifugal Pumps fourth edition is both methodical and in depth It is ideal as a teaching tool for classroom or self directed learning domains and valuable as a design guide for engineer practitioners at all experience levels

Slurry Transport Using Centrifugal Pumps K. C. Wilson, G. R. Addie, A. Sellgren, R. Clift, 2006-06-07 1 1 Applications of Slurry Transport Vast tonnages are pumped every year in the form of solid liquid mixtures known as slurries The application which involves the largest quantities is the dredging industry continually maintaining navigation in harbours and rivers altering coastlines and winning material for landfill and construction purposes As a single dredge may be required to maintain a throughput of 7000 tonnes of slurry per hour or more very large centrifugal pumps are used Figures 1 1 and 1 2 show respectively an exterior view of this type of pump and a view of a large dredge pump impeller Addie Helmley 1989 The manufacture of fertiliser is another process involving massive slur transport operations Li Florida phosphate matrix is recovered by huge draglines in open pit mining operations It is then slurried and pumped to the wash plants through pipelines with a typical length of about 10 kilometres Each year some 34 million tonnes of matrix are transported in this manner This industry employs centrifugal pumps that are generally smaller than those used in large dredges but impeller diameters up to 1 4 m are common and drive capacity is often in excess of 1000 kW The transport distance is typically longer than for dredging applications and Chapter 1 Figure LI Testing a dredge pump at the GIW Hydraulic Laboratory Figure 1 2 Impeller for large dredge pump 1 Introduction 3 hence a series of pumping stations is often used Figure 1 3 shows a boost pump installation in a phosphate pipeline
