Ethico Religious Concepts In The Quran:

Ethico-Religious Concepts in the Qur'an Toshihiko Izutsu,2002-06-17 In the Ethico Religious Concepts in the Qur n Toshihiko Izutsu analyzes the guiding spirit of the Islamic moral code the basic ethical relationship of man to God Izutsu asserts that according to the Qur anic conception God is of an ethical nature and acts upon man in an ethical way The resulting implications for man are enormous requiring devotion not merely to God but to living one s life ethically Izutsu shows that for the Qur an our ethical response to God s actions is religion itself it is at the same time both ethics and religion Izutsu explores these themes by employing ethnolinguistics a theory of the interrelations between linguistic cultural patterns to analyse the semantic structure of major concepts in the Quar an Islam which arose in the seventh century represents one of the most sweeping religious reforms ever to appear in the East The Quar an shows in vividly concrete terms how time honoured tribal norms came into bloody conflict with new ideals of life and finally yielded to the rising power This transitional epoch is of particular importance in the whole of Islamic thought a time during which the key terms of a traditionally fixed system of values were transformed in their connotative structure modified in their combinations and finally integrated into an entirely different system Originally published in 1959 as The Structure of the Ethical Terms in the Koran and revised under the current title in 1966 this 2002 reprint makes this classic work of Islamic studies once again available

Religious Encounters in Transcultural Society David William Kim,2017-11-30 This volume focuses on the various phenomena of religious encounters in a transcultural society where religion or religious traditions play a significant role in a multi cultural concept Religious Encounters in Transcultural Society is divided into three parts Islamic encounters with regional religious East Asian religious encounters and alternative religious encounters This book evokes the fact that religious encounters exist in every transcultural society even though they often remain hidden behind socio cultural issues The situation can be changed but one culture cannot harmoniously and always contain two or multi beliefs The issue of religious encounters mostly arises in the transnational process of religious globalization The Quran, Epic and Apocalypse Todd Lawson, 2017-10-05 How do people understand the Quran to be divine revelation What is it about the text that inspires

such devotion and commitment in the reader believer Todd Lawson explores how the timeless literary genres of epic and

The Qur'an and Its

Interpretative Tradition Andrew Rippin,2001 The position of the Qur an as the central symbol and reference point of Islam cannot be disputed Despite this significance the academic study of the Qur an has lagged far behind that of the Bible In these studies Andrew Rippin reflects upon both the principles and the problems of studying the Qur an within the discipline of religious studies He also pursues detailed investigations of the meaning of variants to the text and the history of Muslim interpretation of the text in its diversity A newly written introduction lays out some of the general implications of these studies while extensive indexes of Qur anic verses books authors and topics make this research more readily accessible
