**Developing EU-Japan Relations in a Changing Regional Context** Dimitri Vanoverbeke,Takao Suami,Takako Ueta,Nicholas Peeters,Frederik Ponjaert,2017-10-02 Relations between the EU and East Asia have consistently expanded in recent years particularly between the EU and Japan Against the background of negotiations on an economic and strategic partnership agreement the EU Japan relationship is set to become the single most comprehensive region to state relationship the world has known today accounting for more than a third of world GDP and a combined population of more than 600 million people This book addresses the potential role of the EU in cooperation with Japan to craft a stable and prosperous mode of governance in the Asian region In today s globalized world seemingly defined by waxing Chinese power and waning American power the book reflects the lack of appreciation for an EU Japan concert in maintaining and developing multilateral principles It aims towards fortifying this relationship by acknowledging that in order to enhance the credibility and capabilities of such an alliance it is necessary to take stock of where the partnership stands today what kind of obstacles still need to be overcome and which options have been left untouched By introducing state of the art empirical research in multiple fields this book will be of key interest to students and scholars of international relations comparative regionalism the European Union and Japanese politics **Developing Eu-japan Relations in a Changing Regional Context** Taylor &

Francis Group,2019-12-20 **Japan, the European Union and Global Governance** Eiji Ogawa,Kolja Raube,Dimitri Vanoverbeke,Jan Wouters,Camille Van der Vorst,2021-03-26 This timely book explores the relationship between Japan and the European Union as they work increasingly closely together in many areas of global governance It discusses the most salient areas of such cooperation from a range of perspectives while examining not just convergences but also differences in light of the recent EU Japan Economic Partnership Agreement and Strategic Partnership Agreement **The European**

**Union and Japan** Professor Hartmut Mayer, Professor Hidetoshi Nakamura, Professor Paul Bacon, 2015-04-28 The EU and Japan have one of the most important trade relationships in the world. Fittingly, this book presents a detailed analysis of their bilateral regulatory environment and negotiation processes. Moreover, the two polities have also co-operated extensively in bilateral and multilateral contexts on a range of global governance issues. Nevertheless, the relationship is widely acknowledged to have significant untapped potential. Deploying the concept of civilian power, the book takes a fresh, honest and provocative look at this important relationship in a post-Fukushima, post-sovereign debt crisis world. First, the book analyses the place of EU-Japan relations within the worldviews of the Japanese and European bodies politic. Subsequently, three thematic sections evaluate their cooperation on such issues as trade, energy, security, environmental politics, development, human rights, post-conflict reconstruction, health and biosecurity. The eminent scholars of the EU-Japan relationship gathered in this book offer informed, empirically rich and policy-relevant insights into the present and future prospects for the relationship.

EU-Japan Relations and the Crisis of Multilateralism Julie Gilson, 2019-12-06 Presenting the history of relations between the European Union and Japan, this book explains the origins and significance of the momentous 2018 Economic Partnership Agreement and its parallel Strategic Partnership Agreement. Set within the historical context of the 1991 Hague Declaration and Action Plan of 2001, this book analyses the impact of recent background changes to the liberal trading order, the proliferation of free trade agreements, and uncertainty about the role of the United States in the world on relations between Japan and the EU. Adopting a path-dependent approach, it illustrates how these agreements were reached as a result of growing patterns of cooperative behaviour between the EU and Japan and the imprint of shared past experiences in areas from trade to security. In so doing, this book also raises important questions about the future of multilateral cooperation, exploring the potential for bilateral agreements to undermine the possibility of finding international solutions to increasingly international problems. *EU-Japan Relations and the Crisis of Multilateralism* will appeal to students and scholars of European and Japanese politics and international relations, as well as policymakers internationally with an interest in these significant agreements.

The EU-Japan Partnership in the Shadow of China Axel Berkofsky, Christopher W. Hughes, Paul Midford, Marie Söderberg, 2018-06-27 Both the European Union and Japan have been major beneficiaries and supporters of the liberal international order first led by the United States since the end of World War II. During this period, they have emerged as global powers; however, the very order that nurtured their rise is now facing twin threats: first, through authoritarian China's promotion of alternative models of global governance, and second, from a crisis of liberalism manifested in the policies of President Donald Trump and Brexit. This book explores these challenges faced by both the EU and Japan, providing a multidisciplinary approach to studying the relationship between the two. It analyses their cooperation in terms of security, defence, and trade and examines how their shared normative values are ultimately

implemented Having recently concluded an Economic Partnership Agreement and with a Strategic Partnership Agreement in the pipeline this book asks whether they can convert their latent and modest cooperation into an alternative form of leadership and an antidote to the illiberal tide sweeping the developed world As the first book to shed light on the new Economic Partnership Agreement between the EU and Japan this book will be useful to students and scholars of Japanese Studies as well as European Union politics and international political economy more generally      **Eu-Japan Relations and the Crisis of Multilateralism** Julie Gilson, 2019-12-10 Presenting the history of relations between the European Union and Japan this book explains the origins and significance of the momentous 2018 Economic Partnership Agreement and its parallel Strategic Partnership Agreement Set within the historical context of the 1991 Hague Declaration and Action Plan of 2001 this book analyses the impact of recent background changes to the liberal trading order the proliferation of free trade agreements and uncertainty about role of the United States in the world on relations between Japan and the EU Adopting a path dependent approach it illustrates how these agreements were reached as a result of growing patterns of cooperative behaviour between the EU and Japan and the imprint of shared past experiences in areas from trade to security In so doing this book also raises important questions about the future of multilateral cooperation exploring the potential for bilateral agreements to undermine the possibility of finding international solutions to increasingly international problems EU Japan Relations and the Crisis of Multilateralism will appeal to students and scholars of European and Japanese politics and international relations as well as policymakers internationally with an interest in these significant agreements      **EU-Japan**, 1998      **Japan and Western Europe** Loukas Tsoukalis, Maureen White, 1982
