

Eureka Math A Story of Functions

Eureka Math is based on the theory that mathematical knowledge is conveyed most clearly and effectively when it is taught in a sequence that follows the "story" of mathematics itself. In *A Story of Functions*, our high school curriculum, this sequencing has been joined with methods of instruction that have been proven to work, in this nation and abroad. These methods drive student understanding beyond rote to deep mastery of mathematical concepts. The goal of Eureka Math is to produce students who are not merely terrified, but fluent, in mathematics.

This teacher edition is a companion to Eureka Math *Student and Engineer*.
