## **Generation Exodus The Fate Of Young Jewish Refugees From Nazi Germany:**

**Generation Exodus** Walter Laqueur, 2003-10-23 This text is a generational history of the young people whose lives were irrevocably shaped by the rise of the Nazis Half a million Jews lived in Germany when Hitler came to power in 1933 Over the next decade thousands would flee Among these refugees teens and young adults formed a remarkable generation They were old enough to appreciate the loss of their homeland and the experience of flight but often young and flexible enough to survive and even flourish in new environments This generation has produced such disparate figures as Henry Kissinger and Dr Ruth Westheimer Walter Laqueur has drawn on interviews published and unpublished memoirs and his own experiences as a member of this group of refugees to paint a vivid and moving portrait of Generation Exodus The Second Generation Andreas W. Daum, Hartmut Lehmann, James J. Sheehan, 2015-12-01 Of the thousands of children and young adults who fled Nazi Germany in the years before the Second World War a remarkable number went on to become trained historians in their adopted homelands By placing autobiographical testimonies alongside historical analysis and professional reflections this richly varied collection comprises the first sustained effort to illuminate the role these men and women played in modern historiography Focusing particularly on those who settled in North America Great Britain and Israel it culminates in a comprehensive meticulously researched biobibliographic guide that provides a systematic overview of the lives and works of this second generation *Hitler and Nazi Germany* Jackson J. Spielvogel, David Redles, 2020-05-05 *Hitler and Nazi Germany A History* is a brief but comprehensive survey of the Third Reich based on current research findings that provides a balanced approach to the study of Hitler's role in the history of the Third Reich The book considers the economic social and political forces that made possible the rise and development of Nazism the institutional cultural and social life of the Third Reich World War II and the Holocaust World War II and the Holocaust are presented as logical outcomes of the ideology of Hitler and the Nazi movement This new edition contains more information on the Kaiserreich Imperial Germany as well as Nazi complicity in the Reichstag Fire and increased discussion of consent and dissent during the Nazi attempt to create the ideal Volksgemeinschaft people's community It takes a greater focus on the experiences of ordinary bystanders perpetrators and victims throughout the text includes more discussion of race and space and the final chapter has been completely revised Fully updated the book ensures that students gain a complete and thorough picture of the period and issues Supported by maps images and thoroughly updated bibliographies that offer further reading suggestions for students to take their study further the book offers the perfect overview of Hitler and the Third Reich **Practices of Reunification** Susanne Korb, Philipp Strobl, 2025-12-16 The volume explores the role of refugees and displaced persons DPs in Europe after 1945 It expands conventional narratives about post National Socialist societies which are characterized by victim myths narratives of Trummerfrauen rubble women and the reconstruction of supposedly homogeneous societies Using analyses informed by new approaches in cultural studies and digital humanities the authors enhance studies of refugees and DPs ways of living and

their interactions with their surrounding societies Relying on microhistorical perspectives the case studies focus on both post National Socialist societies and exile communities and thus contribute to a better understanding of everyday life The book locates itself at the intersection of Migration Studies Gender Studies Emotion Studies and the History of Knowledge and focuses on the following key questions How did family members reconnect with individuals liberated from concentration camps How did they communicate about the choice of new places to live How did exile communities reorganize themselves after the end of the war This volume explores diverse experiences in the post 1945 world that have been shaping not only the European societies but have also been influencing our present legal and societal understandings and interpretations on a global scale

**German Migrant Historians in North America** Karen Hagemann, Konrad H. Jarausch, 2024-11-01 The migration experiences career paths and scholarship of historians born in Germany who started emigrating to North America in the 1950s have had a unique impact on the transatlantic practice of Central European History German Migrant Historians in North America analyzes the experiences of this postwar group of scholars and asks what informed their education and career choices and what motivated them to emigrate to North America The contributors reflect on how these migration experiences informed their own research and teaching and particularly discuss the more general development of the transatlantic exchange between German and American historians in the scholarship on Modern Central European History

**Cities of Refuge** Lori Gemeiner Bihler, 2018-04-01 Contrasts the experiences of German Jewish refugees from the Holocaust who fled to London and New York City In the years following Hitler's rise to power German Jews faced increasingly restrictive antisemitic laws and many responded by fleeing to more tolerant countries Cities of Refuge compares the experiences of Jewish refugees who immigrated to London and New York City by analyzing letters diaries newspapers organizational documents and oral histories Lori Gemeiner Bihler examines institutions neighborhoods employment language use name changes dress family dynamics and domestic life in these two cities to determine why immigrants in London adopted local customs more quickly than those in New York City yet identified less as British than their counterparts in the United States did as American By highlighting a disparity between integration and identity formation Bihler challenges traditional theories of assimilation and provides a new framework for the study of refugees and migration This is the first comprehensive comparative study of

German Jewish immigration during the period of National Socialism Comparing German Jews who fled their homeland and resettled in London with those who resettled in New York City Bihler carefully documents the distinct structural conditions each group encountered and consequently the divergent lives the two immigrant groups led Bihler s numerous significant insights would be unattainable without her intellectual commitment to rigorous comparative study Judith M Gerson coeditor of *Sociology Confronts the Holocaust Memories and Identities in Jewish Diasporas* **Dynamics of Emigration** Stefan Berger, Philipp Müller, 2022-08-12 As a pioneering volume to consider the impact of exile on historical scholarship in the twentieth century in a systematic and global way looking at Europe North America South America and Asia *Dynamics of Emigration* asks about epistemic repercussions on the experience of exile and exiles Analyzing both the impact that exile scholars had on their host societies and on the societies they had to leave the volume investigates exiles pathways to integration into new host societies and the many difficulties they face establishing themselves in new surroundings Focusing on the age of extremes and the realms of exile from fascist and right wing dictatorships as well as communist regimes the contributions look at the reasons scholars have for going into exile while providing side by side examination of the support organizations and paths for success involved with living in exile *“Through Their Eyes...” - Biographical Research in the Digital Age* Björn Siegel, Andrea Sinn, Jay Howard Geller, Margarete Myers Feinstein, Nils Roemer, Sylwia Papier, Tabea Henn, Gerald Lamprecht, Marco Jandl, Andreas Heusler, Maximilian Strnad, Renate Evers, Seth Bernstein, Richard I. Cohen, Elena Hoffenberg, Morgan Morales, Avner Ofrath, Thomas Varkonyi, Anastasiia Strakhova, 2025-05-06 *PaRDeS Journal of the Association for Jewish Studies in Germany* 30 Biographical studies have always been central to the field of history but the relevance of biographical research seems to have increased in recent years calling for a deeper analytical study and a critical re evaluation of the newly developing biographical turn Especially in an increasingly digitized world including in academia life stories seem to offer new perspectives through which personal narratives cultural phenomena or literary works can be examined understood and presented Furthermore these sources raise new questions about the interests and perspectives of the author s the reliability and subjectivity of the individual as well as the constructiveness and authenticity of associated texts and sources While these questions might be universal they are inherent in Jewish history and culture The worldwide spread of digitization offers answers to some of these questions but also leads to new demands and difficulties in the study of biographies Therefore in the digital age biographical research is a complex but promising method for expanding knowledge about phenomena such as Jewish forced migration the Holocaust the development of diasporas exiles and transnational networks but also questions of acculturation representation remembrance and the formation of memory **The B'nai B'rith International Jewish Monthly** ,2001 **Pious and Rebellious** Avraham Grossman, 2004-06 Woman s status in historical perspective p 273 *The New Leader* ,2000 *The Jewish Spectator* ,2000 **Antisemitism** Susan Sarah Cohen, 1987 **Nazi History and the Holocaust** ,1999 *Internationale Bibliographie der Rezensionen*
