Gentle Will Meditative Guidelines For Creative Consciousness:

The Gentle Will Georg Kühlewind, 2011-03 Every spiritual practice every exercise of consciousness all meditation indeed every moment of true awareness we do with the gentle will even if we are unaware of it initially and cannot fully activate it yet In the course of practice however the gentle will begins to shine and we gradually gain the ability to access it in our ordinary daily activities allowing our lives to become infinitely richer meaningful and creative The gentle will is relaxed receptive expressive creative soft light and playful It is not rigid or cramped We use the gentle will in artistic activities such as playing a musical instrument writing a poem or painting a picture It is the original will of the human being the will of the I The gentle will is not the determined useful goal oriented egoistic working will of Sisyphus who will never be able to roll his boulder up the mountain The gentle will is free of me feeling and egoism In this way it differs from the hard will which works through egoism Today however all life is governed by the principle of usefulness utility comfort and efficiency the hard will of egoism This approach has brought the world to the brink of catastrophe regardless of what technocrats say or think about it Georg Kühlewind writes in this book that the only hope he sees of avoiding destruction is a change in human consciousness the hard will must become the gentle will To this end he provides exercises through which we may transform the hard will into the gentle will
