Genius Denied How To Stop Wasting Our Brightest Young Minds:

Genius Denied Jan Davidson, Bob Davidson, Laura Vanderkam, 2007-11-01 With all the talk of failing schools these days we forget that schools can fail their brightest students too We pledge to leave no child behind but in American schools today thousands of gifted and talented students fall short of their potential In *Genius Denied* Jan and Bob Davidson describe the quiet crisis in education gifted students spending their days in classrooms learning little beyond how to cope with boredom as they relearn material they've already mastered years before This lack of challenge leads to frustration underachievement and even failure Some gifted students become severely depressed At a time when our country needs a deep intellectual talent pool the squandering of these bright young minds is a national tragedy There are hundreds of thousands of highly gifted children in the U S and millions more whose intelligence is above average yet few receive the education they deserve Many school districts have no gifted programs or offer only token enrichment classes Education of the gifted is in this sorry state say the Davidsons because of indifference lack of funding and the pernicious notion that education should have a leveling effect a one size fits all concept that deliberately ignores the needs of the gifted But all children are entitled to an appropriate education insist the authors those left behind as well as those who want to surge ahead The Davidsons show parents and educators how to reach and challenge gifted students They offer practical advice based on their experience as founders of a nonprofit organization that assists gifted children They show parents how to become their children's advocates how to win support for gifted students within the local schools and when and how to go outside the school system They discuss everything from acceleration skipping a grade to homeschooling and finding mentors for children They tell stories of real parents and students who overcame poor schooling environments to discover the joy of learning *Genius Denied* is an inspiring book that provides a beacon of hope for children at risk of losing their valuable gift of intellectual potential

Losing Our Minds Deborah L. Ruf, 2005 Wouldn't it be a disgrace if we lost the brightest students now attending our nation's schools Dr Deborah L Ruf establishes that there are far more highly gifted children than previously imagined yet large numbers of very bright children are never discovered by their schools Using 78 gifted and highly gifted children as her examples she illustrates five levels of giftedness Parents will be able to estimate which of the five levels of giftedness their child fits by comparing their own child's developmental milestones to those of the children described in the book This book contains practical advice for parents including how to find a school that works for your child Book jacket *The Everything Parent's Guide to Raising a Gifted Child* Robbins Med Herbert, 2011-12-15 Raising a gifted child is both a joy and a challenge Gifted and exceptional children can seem self-sufficient but it takes more than intelligence to lead a happy and fulfilling life Your child needs your support and advocacy in school in social situations and even at home This guide shows you how to encourage and foster your gifted child from birth to adolescence including information on How to determine if your child is gifted Options for school programs and activities Dealing with perfectionism and stress Setting realistic and healthy goals for

your child Ensuring proper socialization and friendship Coping with jealousy and bullying from other children Packed with useful and professional advice this is a reassuring guide to help your gifted child grow thrive and develop his talents The Trouble with Islam Today Irshad Manji,2005-03-16 I have to be honest with you Islam is on very thin ice with me Through our screaming self pity and our conspicuous silences we Muslims are conspiring against ourselves We re in crisis and we re dragging the rest of the world with us If ever there was a moment for an Islamic reformation it s now For the love of God what are we doing about it In this open letter Irshad Manji unearths the troubling cornerstones of mainstream Islam today tribal insularity deep seated anti Semitism and an uncritical acceptance of the Koran as the final and therefore superior manifesto of God s will But her message is ultimately positive She offers a practical vision of how Islam can undergo a reformation that empowers women promotes respect for religious minorities and fosters a competition of ideas Her vision revives ijtiḥād Islam s lost tradition of independent thinking In that spirit Irshad has a refreshing challenge for both Muslims and non Muslims Don t silence yourselves Ask questions out loud The Trouble with Islam Today is a clarion call for a fatwa free future **Closing America's High-achievement Gap: A Wise Giver's Guide to Helping Our Most Talented Students Reach Their Full Potential**

Andy Smarick,2013-10-22 This intriguing book makes a powerful case for a sorely needed U S educational improvement that has been almost entirely overlooked During the last two decades philanthropists and education reformers have made urgent efforts to pull weak students up to levels of basic competency Though that vital work is incomplete there is evidence of progress among low achievers Meanwhile though children at the other end of the achievement spectrum have gotten lost in the shuffle Programs and funding once aimed at stimulating high potential students to make the most of their talents have withered and we are now doing a poor job of stimulating our quick learners When the particular needs of high potential students are not met by schools that is a moral failure because every child deserves to be stretched and challenged It is also a threat to our national interests since high achievers will be crucial to America s future ability to compete internationally This is a field where donors have wide open opportunities to lead In the pages of this fresh practical guidebook savvy school reform philanthropists will be introduced to scores of programs and institutions that can pull talented students of all ages races and income levels up to their full natural capabilities
