Geographers Hayden Lorimer, 2014-09-25 Volume 33 of *Geographers Biobibliographical Studies* adds significantly to the corpus of scholarship on geography's multiple histories and biographies with six essays on individuals who have made major contributions to the development of geography in the twentieth century. This volume focuses on European geographers including essays on individuals from Britain, France, and Hungary. These are individuals who have made important and distinctive contributions to a diverse range of fields including cartography, physical geography, oceanography, and urban theory. As with previous volumes, these biographical essays demonstrate the importance of geographers' lives in terms of the lived experience of geography in practice. Bloomsbury Publishing Geographers Hayden Lorimer, Charles W. J. Withers, 2015-12-14 The thirtieth volume of *Geographers Biobibliographical Studies* adds significantly to the corpus of scholarship on geography's multiple histories and biographies with nine essays on figures from Britain, France, the USA, and Spain. Each was distinguished in his or her own scholarship and made distinctive contributions in specific fields as historical, political, or population geographers, and in one case as a hydrologist/geomorphologist. The subjects also shared a commitment to the educational benefits of geography and of geographical research that was rooted in a vision of geography as socially illuminating and individually life-changing. Here is further rich testimony of the importance of geographers' lives to the lived experience of geography in practice. *Geographers* Hayden Lorimer, Charles W. J. Withers, 2013-09-12 This volume of *Geographers Biobibliographical Studies* brings together essays on four Frenchmen, a Czech, and three Englishmen. The lives of our subjects extend from the late Enlightenment and the era of polite science in Regency Britain to the first decade of the 21st century. These geographers and their studies are linked not only in their regional expertise from Brazil, French Indo-China, to Scandinavia and South Africa, but also by their commitment to the development of geography as a science and as a discipline. Here, in different settings and at different times, we can see how the lived experience of geographers' lives shaped the contours of the subject. Geographers Hayden Lorimer, Charles W. J.
