Putting Essential Understanding of Addition and Subtraction Into Practice in Prekindergarten-grade 2 Janet H.

Caldwell, Beth McCord Kobett, Karen S. Karp, 2014 Do your students have the incorrect idea that addition makes numbers bigger and subtraction makes numbers smaller Do they believe that subtraction is always taking away What tasks can you offer what questions can you ask to determine what your students know or don't know and move them forward in their thinking This book focuses on the specialized pedagogical content knowledge that you need to teach addition and subtraction effectively in prekindergarten grade 2 The authors demonstrate how to use this multifaceted knowledge to address the big ideas and essential understandings that students must develop for success with these computations not only in their current work but also in higher level mathematics and a myriad of real world contexts Explore rich research based strategies and tasks that show how students are reasoning about and making sense of addition and subtraction Use the opportunities that these and similar tasks provide to build on their understanding while identifying and correcting misunderstandings that may be keeping them from taking the next steps in learning You have essential understanding It's time to put it into practice in your teaching The Putting Essential Understanding into Practice Series moves NCTM's Essential Understanding Series into the classroom The new series details and explores best practices for teaching the essential ideas that students must grasp about fundamental topics in mathematics topics that are challenging to learn and teach but are critical to the development of mathematical understanding Classroom vignettes and samples of student work bring each topic to life and questions for reader reaction open it up for hands on exploration Each volume underscores connections with the Common Core State Standards for Mathematics while highlighting the knowledge of learners curriculum instructional strategies and assessment that pedagogical content knowledge entails Resources and tasks are available at nctm.org/more4U **Envision Math**, 2006
