that the basis of our physical world is actually mental conscious thoughts Other discoveries are causing us to redefine our concepts of mind and the elusive thing we call consciousness All strongly hint that spirituality is the underlying source of everything Frontier scientists and scientifically trained researchers are providing us with a rich and expanding base of knowledge through systematic investigations of startling phenomena that have been observed in quantum physics cosmology biology psychology disease and healing death near death experiences reincarnation experiences and those occurring in spiritual hypnosis on the nature of the spiritual realm New concepts of reality are especially needed to explain the incredibly finetuned characteristics and the mysterious nature of our physical universe Ninety five percent of the universe s energy and mass are a mystery to scientists and for the moment we resort to naming them dark matter and dark energy The last time a comparable knowledge revolution occurred was in the late sixteenth century when astronomers determined that the planets revolved around the sun not the earth Historians call it the Copernican Revolution because it led to modern Western science From one perspective the new era predicted in this book a revolution in its own right can be considered the completion of the quantum revolution by defining and explaining the role of consciousness in our universe An underlying aspect of this new revolution is the sense that humanity is moving into a new era of rapidly expanding knowledge of the human spirit our soul aspect and non physical realities Until now this emerging knowledge has not been organized into a coherent and comprehensive structure Frontiers of Knowledge provides the first outline of this new structure of reality

Transitions-Earth, Death, the Afterlife Marianne Maynard, PhD, Marianne Maynard, 2007-05 Humanity is well on its way in embracing the path of enlightenment We have rejected the doomsday prophecies for earth and have taken back our power to create a more loving world We have the choice to change what has not worked and to create a new reality on earth There is no predestination only our agreement to experience what we have manifested In the year 2012 we are told that humanity has the potential of shifting to higher dimensions of thought and to participate in the global ascension of the human race The questions are What can we expect during this time of planetary changes How can we create a heaven on earth Is it possible to expand our consciousness to higher dimensions and plans such as inter dimensional communication with those in afterlife beyond death These and many more questions are addressed in this book which focus on the next step in the human ascension and evolutionary cycle
