Essential History China Matters Americans:

An Essential History of China William John Cox, 2016-01-15 Who are the Chinese people How do they think What experiences have shaped their attitudes Why should it matter to Americans At a time when most people in the West still believed the earth was flat the Chinese had accurately calculated its size charted the sky invented the compass and were navigating the oceans The rest of the world was struggling to get to China but China was already there We can only imagine how different life would be today if the tiny 60 foot ships of Columbus and de Gama had been confronted by massive Chinese dreadnoughts 440 feet long and armed with cannons and rockets Most likely we would all be speaking Chinese instead of wondering whether our children should be studying it Many Americans are unaware of how western corporations imposed the destructive opium trade on China how using the gunpowder and cannons invented by the Chinese the West forced them to accept a series of humiliating treaties or how the United States encouraged Japan to invade China before its attack on Pearl Harbor At the same time the Chinese people are deprived of the truth about the psychotic rule of Mao Zedong under which tens of millions of Chinese died from starvation torture and mass murder Under communist capitalism China has become the top manufacturer of consumer goods in the world It has also become America's banker and holds billions of dollars which it is spending to modernize its military The United States is confronting China in an effort to contain its ambitions and to demonstrate American exceptionalism Bellicose statements in both nations could lead to war and the time is short for reason to prevail Dedicated to Peace in the Pacific *An Essential History of China* Why it Matters to Americans provides critical information for both the American and Chinese people as well as their leaders and it prescribes an effective cure for the political illnesses suffered by both governments

Problems in Modern Latin American History James A. Wood, John Charles Chasteen, 2009 A fourth edition of this book is now available Now in its third edition this leading reader has been updated to make it even more relevant to the study of contemporary Latin America This edition includes an entirely new chapter The New Left Turn and the globalization chapter has been thoroughly revised to reflect the rapid pace of change over the past five years The book continues to offer a rich variety of materials that can be tailored to the needs of individual instructors By focusing each chapter on a single interpretive problem the book painlessly engages students in document analysis and introduces them to historiography With its innovative combination of primary and secondary sources and editorial analysis this text is designed specifically to stimulate critical thinking in a wide range of courses on Latin American history since independence

Teaching American History in the Middle Grades of the Elementary School Mary Gertrude Kelly, 1928

Seeking the Common Dreams between the Worlds Yan Wang, Yali Zhao, 2013-06-01 This is the first book that probes the lived experiences of Chinese immigrant faculty in North American higher education institutions their struggles challenges successes etc It explores how their past experiences in China have shaped who they are now what they do and how they pursue their teaching research and service as well as the reality of their everyday life that inevitably intertwines

with their present and past diverse cultural backgrounds and unique experiences Different from previous books that explore immigrant minority faculty defined ambiguously and broadly and from the theoretical framework of ethnic relations this book has a particular focus on mainland Chinese immigrant faculty which offers a richer and deeper understanding of their cross culture experiences through autoethnographic research and by multiple lenses Through authors vivid portray of the ebbs and flows of their life in the academe readers will gain an enjoyable and holistic knowledge of the cultural political linguistic scholarly and personal issues contemporary Chinese immigrant faculty encounter as they cross the border of multiple worlds All contributors to this book had the experience of being the first generation Chinese immigrants and they either are currently teaching or used to teach in North American higher education institutions who were born brought up educated in Mainland China and came to North America for graduate degrees from early 1980s to 2000
