

# Key Classroom Management Skills

Based on research by Gage & MacSuga-Gage (2017) and Dicke et al. (2015)

01

## Maximizing Structure and Predictability

By setting clear expectations and routines, teachers can create a stable learning environment where students know what to expect (Simonsen et al., 2008).

02

## Active Engagement of Students

During a lesson, a teacher may ask open-ended questions, encouraging multiple students to respond. The teacher could use techniques such as "Think-Pair-Share," where students think about a question, discuss it with a partner, and then share their thoughts with the class.

03

## Behavior-Specific Praise (BSP)

Rather than simply saying "Good job," a teacher might say, "I really appreciate how you took the time to help your classmate understand that problem. Your patience and clear explanations show great teamwork."

04

## Effective Use of Instructional Strategies

(e.g., a teacher may utilize graphic organizers to aid students in understanding complex subjects, providing clear instructions on how to fill them out).

05

## Prompting for Expectations

Before a group activity, a teacher might remind students of the collaboration norms they've established, such as listening to one another and taking turns speaking. These reminders serve as pre-corrections to guide students towards successful collaboration, reducing the likelihood of issues arising during the activity.

06

## Support for Students with Emotional/Behavioral Disorders (EBDs)

A teacher might use frequent praise for on-task behavior, combined with differentiated instruction and individualized support, to create an inclusive environment for students with EBDs.

07

## Integration of Evidence Based Interventions

The Good Behavior Game, for instance, encourages positive behavior by dividing the class into teams and awarding points for adherence to classroom rules. It can be an effective way to foster a sense of community and responsibility among students.

08

## Reduce Suspensions and Expulsions

A school might replace traditional suspensions with in-school interventions that allow students to reflect on their behavior and learn from it.
