Introducing Comparative Politics Stephen Orvis, Carol Ann Drogus, 2017-11-30 For Introducing Comparative Politics The Essentials the driving force is the pluralist objective stance on introducing students to core concepts in Comparative Politics Authors Stephen Orvis and Carol Ann Drogus introduce key comparative questions while providing equal strengths and weaknesses of commonly debated theories structures and beliefs that push students beyond memorization of country profiles and ever changing statistics and generate in class debate over key concepts used in the science of comparative politics While detailed case studies can go in depth on specific countries and political systems Introducing Comparative Politics The Essentials distills its country material into paragraph long examples woven seamlessly into the narrative of the text increasing diverse global awareness current event literacy and critical thinking skills Doing Politics Jacqui Briggs, 2014-11-27 Aimed at politics students in their final year of secondary education or beginning their degrees this highly readable book is the ideal introduction to politics Doing Politics is a detailed guide to both the study and the activity of politics which explores why we study politics what is involved in a politics degree and the skills and mindset that are needed to tackle the subject Key questions are answered including Just what is politics and how does it affect us Why does politics and why do politicians get a bad press How do we study non traditional forms of politics Assuming no prior knowledge this lively and engaging guide is the perfect introduction to the academic study of politics *The Dynamics of Change in Modern World Politics* Jean Kachiga, 2018-04-04 In modern world politics there exists a dynamic of change and an observable pattern of phenomena These phenomena consist of driving forces of new paradigms that their exigencies induce of new epochs that such exigencies provoke of adjustments made by states who may be initiators new comers late comers or inactive and of shifts in the hierarchy of world powers that the differentiated rate of their adjustment success produces causing what power shift theory refers to as hegemonic transition This book examines the conditions under which such change occurs the recurrence of such change in various epochs of the modern era and the pattern that such recurrence displays in order to explain the recurrent shift in the hierarchy of wealth status and power among peer states **Foundations of Comparative Politics** Kenneth Newton, Jan W. van Deth, 2021-01-21 Now in its fourth edition this textbook gives a comprehensively updated account of the government and politics of democratic states *The HISOFE Dictionary of Midnight Politics* Fossungu, Peter Ateh-Afac, 2014-12-01 Building on Fossungu's earlier works and essentially providing Africa with original critical and multi level analyses of the trio of globalization democracy and national determination this book theorizes that

African states have to unite in order to have any impact in the global economy Using the failure of the Cameroon Goodwill Association of Montreal CGAM as a case study the book urges Africans to make hard choices and avoid politickerization and midnight politics in favour of fossungupalogy that is the science of straightforwardness necessitating the fearless looking at truth straight in the eye The questions of the book are many but do all boil down to whether or not Africans fear the truth and do not therefore do politics It is amazing that Africans in the West live in societies where fierce political competitors do embrace each other after one has defeated the other but they are incapable of looking their so called friends in the eye and saying for example Man I think you ve totally gotten it wrong this time Such comportment defines politickerization or negative competition While attempting some possible responses to the numerous queries it raises this book basically proffers the science of Four Eyesism as a discipline that all African schools need to institute and make a compulsory subject if the vandalized continent would have to be awakened to its realities This book is rich in Fossungu s dazzling capacity to invent define and use a multitude of new terminological constructs informed by African experiences *Essentials of Comparative Politics with Cases (Sixth AP® Edition)* Patrick H. O'Neil,2018 *Essentials of Comparative Politics (Seventh International Student Edition)* Patrick H.
