Perkins, 2020-05-11 South Korea has been held out as an economic miracle as a country that successfully completed the transition from underdeveloped to developed country status and as an example of how a middle income country can continue to move up the technology ladder into the production and export of more sophisticated goods and services But with these successes have come challenges among them poverty inequality long work hours financial instability and complaints about the economic and political power of the country's large corporate conglomerates or chaebol The Korean Economy provides an overview of Korean economic experience since the 1950s with a focus on the period since democratization in 1987 Successive chapters analyze the Korean experience from the perspectives of political economy the growth record industrial organization and corporate governance financial development and instability labor and employment inequality and social policy and Korea's place in the world economy A concluding chapter describes the country's economic challenges going forward and how they can best be met The volume also serves to summarize the findings of companion volumes in the Harvard Korean Development Institute series on the Korean economy also published by the Harvard University Asia Center **The Sociology of Economic Life** Mark Granovetter, 2018-04-17 This book incorporates classic and contemporary readings in economic sociology and related disciplines to provide students with a broad understanding of the many dimensions of economic life It discusses Max Weber's key concepts in economics and sociology **Economic Life in Korea** Shin-Yong Chun, 1982 From Miracle to Maturity Barry J. Eichengreen, Dwight Heald Perkins, Kwan-ho Sin, 2012 South Korea was one of the poorest economies on the planet after the Korean War by the twenty first century it had become a middle income country home to some of the world's leading industrial corporations From Miracle to Maturity offers an analysis of Korea's remarkable economic growth and considers whether its economy is now underperforming The New Korea Myung Oak KIM, Sam JAFFE, 2010-04-30 In 1953 South Korea was rated by the U N as the poorest country in the world Five decades later it is the fifteenth largest economy Now South Korea's decisions on how to manage its society and its role as a modern democracy while also establishing its policy regarding reunification with North Korea will determine where the country will go in the next fifty years The New Korea examines the political economic industrial and societal aspects of Korea today Will it continue to enjoy an economic boom through new industries while competing against low wage countries like China and India Will it return to its role as a stomping ground for other powers And what should Westerners pay attention to in terms of investment and business opportunities As South Korea enters the most critical phase of its journey it is crucial that we understand the factors involving its decisions and evolution The New Korea is a fascinating account of what is and may become the state of this important region Han Unbound John Lie, 1998 Because the author sees South Korean development as contingent on a variety of particular circumstances he ranges widely to include not only the information typically gathered by sociologists and political economists but also insights gained from

examining popular tastes and values poetry fiction and ethnography showing how all of these aspects of South Korean life help elucidate his main themes **Growth and Structural Changes in the Korean Economy, 1910-1940** Sang-Chul Suh,2020-03-17 A detailed exploration of the development of the Korean economy during the colonial period The work s objectives include the measurement of the rate of growth of the Korean economy during this thirty year period and an explanation of the unique growth patterns experienced under Japanese occupation One of the studies on the economic and social modernization of Korea undertaken jointly by the Harvard Institute for International Development and the Korea Development Institute **Korea as a Knowledge Economy** Chung-hae Sŏ,Derek Hung Chiat Chen,2007 Korea s development process offers valuable lessons for other developing and less developed economies This volume examines the Korean model and Korea s march toward a knowledge economy from a poverty ridden economy before the launch of full scale industrialization in the early 1960s **Korean Survey** ,1952 **The Korean Economy** Il SaKong,Youngsun Koh,Committee for the Sixty-Year History of the Korean Economy,2010 Reviews the evolution of economic growth and trends in social development during the period between 1948 and 2009
