**Wentworth - The Final Sentence On File** Erin McWhirter, 2021-10-01 The official inside story from the cast and exclusive untold secrets from one of the most beloved Australian series in television history. Epic shiv fights. Shocking deaths. Lethal hotshots. Betrayals so brutal they send fans into meltdown. This is Wentworth Correctional Centre where tough women rule and where even tougher women are made. Where undying love and fierce friendships are forged and loyalties tested or burned to the ground. Over almost a decade of searing emotional storylines and spectacular power struggles like the rise of the Top Dog or horrifying twists like a steam press attack, Wentworth has sealed its spot in history as FOXTEL's highest rating and most successful locally produced original drama and one of Australia's all-time favourites. To celebrate this gritty, critically acclaimed series, On File brings you never-before-told stories and in-depth access to the celebrated actors and producers of this favourite, much-loved and enduring television series. This official exclusive collection dives deep into the core of Wentworth's love-em-or-hate-em main characters from abused housewife and mother Bea Smith and the cold-calculating and terrifying Joan The Freak Ferguson to bitterly forsaken undercover cop-turned-prisoner Rita Connors, unearthing funny and poignant reflections, never-released backstories and behind-the-scenes revelations from when the cameras stopped rolling, as told by the high-profile stars. Wentworth has left an indelible mark on its fans in Australia and those around the world where it has screened in more than 170 countries and been adapted multiple times, setting it apart from other Australian dramas and earning an impressive catalogue of awards and nominations. *Ghost Work* Mary L. Gray, Siddharth Suri, 2019-05-07 In the spirit of Nickel and Dimed, a necessary and revelatory expose of the invisible human workforce that powers the web and that foreshadows the true future of work. Hidden beneath the surface of the web, lost in our wrong-headed debates about AI, a new menace is looming. Anthropologist Mary L. Gray and computer scientist Siddharth Suri team up to unveil how services delivered by companies like Amazon, Google, Microsoft, and Uber can only function smoothly thanks to the judgment and experience of a vast invisible human labor force. These people doing ghost work make the internet seem smart. They perform high-tech piecemeal flagging, X-rated content proofreading, designing engine parts, and much more. An estimated 8 percent of Americans have worked at least once in this ghost economy, and that number is growing. They usually earn less than legal minimums for traditional work; they have no health benefits, and they can be fired at any time for any reason or none. There are no labor laws to govern this kind of work, and these latter-day assembly lines draw in and all too often overwork and underpay a surprisingly diverse range of workers: harried young mothers, professionals forced into early retirement, recent grads who can't get a toehold on the traditional employment ladder, and minorities shut out of the jobs they want. Gray and Suri also show how ghost workers, employers, and society at large can ensure that this new kind of work creates opportunity rather than misery for those who do it. *CompTIA A+ Certification All-in-One Exam Guide*,
