Howell, 2020-03-02 From the mid 90s to the present television drama with religious content has come to reflect the growing cultural divide between white middle America and concentrated urban elites As author Charlotte E Howell argues in this book by 2016 television narratives of white Christianity had become entirely disconnected from the religion they were meant to represent Programming labeled family friendly became a euphemism for white middlebrow America and developing audience niches became increasingly significant to serial dramatic television Utilizing original case studies and interviews *Divine Programming* investigates the development writing producing marketing and positioning of key series including 7th Heaven Friday Night Lights Rectify Supernatural Jane the Virgin Daredevil and Preacher As this book shows there has historically been a deep ambivalence among television production cultures regarding religion and Christianity more specifically It illustrates how middle American television audiences lost significance within the Hollywood television industry and how this in turn has informed and continues to inform television programming on a larger scale In recent years upscale audience niches have aligned with the perceived tastes of affluent educated multicultural and importantly secular elites As a result the televised representation of white Christianity had to be othered and shifted into the unreality of fantastic genres to appeal to niche audiences To examine this effect Howell looks at religious representation through four approaches

establishment distancing displacement and use and looks at series across a variety of genres and outlets in order to provide varied analyses of each theme **Investigating Stranger Things** Tracey Mollet, Lindsey Scott, 2021-05-18 This edited collection explores the narrative genre nostalgia and fandoms of the phenomenally successful Netflix original series *Stranger Things* The book brings together scholars in the fields of media humanities communications and cultural studies to consider the various ways in which the Duffer Brothers show both challenges and confirms pre conceived notions of cult media Through its three sections on texts contexts and receptions the collection examines all aspects of the series presence in popular culture engaging in debates surrounding cult horror teen drama fan practices and contemporary anxieties in the era

of Trump Its chapters seek to address relatively neglected areas of scholarship in the realm of cult media such as set design fashion and the immersive Secret Cinema Experience These discussions also serve to demonstrate how cult texts are facilitated by the new age of television where notions of medium specificity are fundamentally transformed and streaming platforms open up shows to extensive analysis in the now mainstream world of cult entertainment *California*
