Domestic Manners Of The Americans:

Domestic Manners of the Americans Frances Milton Trollope, 1832 **Domestic Manners of the Americans** Frances Milton Trollope, 1832

On the 4th of November 1827 I sailed from London accompanied by my son and two daughters and after a favourable though somewhat tedious voyage arrived on Christmas day at the mouth of the Mississippi. The first indication of our approach to land was the appearance of this mighty river pouring forth its muddy mass of waters and mingling with the deep blue of the Mexican Gulf. The shores of this river are so utterly flat that no object upon them is perceptible at sea and we gazed with pleasure on the muddy ocean that met us for it told us we were arrived and seven weeks of sailing had wearied us yet it was not without a feeling like regret that we passed from the bright blue waves whose varying aspect had so long furnished our chief amusement into the murky stream which now received us. Large flights of pelicans were seen standing upon the long masses of mud which rose above the surface of the waters and a pilot came to guide us over the bar long before any other indication of land was visible. I never beheld a scene so utterly desolate as this entrance of the Mississippi. Had Dante seen it he might have drawn images of another Bolgia from its horrors. One only object rears itself above the eddying waters this is the mast of a vessel long since wrecked in attempting to cross the bar and it still stands a dismal witness of the destruction that has been and a boding prophet of that which is to come. By degrees bulrushes of enormous growth become visible and a few more miles of mud brought us within sight of a cluster of huts called the Balize by far the most miserable station that I ever saw made the dwelling of man but I was told that many families of pilots and fishermen lived there. For several miles above its mouth the Mississippi presents no objects more interesting than mud banks monstrous bulrushes and now and then a huge crocodile luxuriating in the slime. Another circumstance that gives to this dreary scene an aspect of desolation is the incessant appearance of vast quantities of drift wood which is ever finding its way to the different mouths of the Mississippi. Trees of enormous length sometimes still bearing their branches and still oftener their upturned roots entire the victims of the frequent hurricane come floating down the stream. Sometimes several of these entangled together collect among their boughs a quantity of floating rubbish that gives the mass the appearance of a moving island bearing a forest with its roots mocking the heavens while the dishonoured branches lash the tide in idle vengeance this as it approaches the vessel and glides swiftly past looks like the fragment of a world in ruins.

Frances Trollope's *Domestic Manners of the Americans* complemented by Auguste Hervieu's satiric illustrations took the transatlantic world by storm in 1832. An unusual combination of realism, visual satire and novelistic detail, *Domestic Manners* recounts Trollope's three years as an Englishwoman living in America. Trollope makes the civility of an entire nation the subject of her keen scrutiny, a strategy that would earn her in the words of the critic Michael Sadleir more anger and applause than almost any writer of her day. Auguste Hervieu's twenty-four original illustrations placed and

scaled as in the first edition are included in this Broadview Edition inviting readers to experience the original relationship of image and text
