

PARKING BRAKE

Your NEW '59 Dodge is equipped with a parking brake that has the highest braking and holding power in the industry. It operates independently of the Total-Contact Brakes. If it is necessary to use this brake in an emergency, the handle should be turned to the left and the brake cautiously applied with a "pumping" action to avoid locking the wheels.

TOTAL-CONTACT BRAKES

New Total-Contact Brakes require much less effort. They give more instant response, offer greater resistance to brake fade and last much longer. All of these advantages are yours with exclusive Dodge Total-Contact Brakes, because they have been engineered to support the brake shoes in a unique "floating" manner that gives you much smoother and more even braking pressures at all times.

NOTE: In replenishing brake fluid, only MoPar Heavy Duty Brake Fluid (an SAE Heavy Duty Brake Fluid) should be used.
