Dante's *Commedia* Author information is not given Annotation copyrighted by Book News Inc Portland OR Mann's Doctor Faustus John Anderson, 2007 This is a reader's guide to Mann's classic novel that attempts to answer the most compelling question of the 20th century how could millions of Jewish men women and children have been murdered by the government of a country that prided itself as the civilized land of music the land of Bach Mozart and Beethoven The noble purposes of this novel are to understand the nature and sources of Nazi evil and to help ban it from the ring in the future As you will note Mann's explanation is relevant for events in Iraq in 2007 Mann gives a new answer to this question the land of music produced not only the freedom based music of Bach Mozart and Beethoven It also produced twelve tone row music serial music composed without freedom but with strict controls Founded on repetition this new and ultra control German music arrived with the advent of the Nazis Actually invented by the German Arnold Schoenberg in the novel it is invented by a fictional composer Adrian Leverkühn Mann believed that this kind of music contains the key to what happened politically in Germany starting at that same time The first composition using the serial method was published in 1921 the same year Hitler became head of the National Socialist party The key is that the music is composed with a rigid set of rules that must be slavishly followed Based in repetition these rules were to govern all aspects of music melodic progression chord structure rhythm The rules denied composer freedom This kind of music is discussed against the philosophical implications of the music of various composers such as Bach and Beethoven Mann presents the view that Beethoven's late period music paved the way to Leverkühn's serial music to Gestapo music Mann finds a demonic energy field at the heart of both serial music and of Nazism Both triggered the rise of a demonic force by reason of blind and slavish obedience to rigid rules designed to establish control over too much control over so much that freedom denying methods were necessary to try to hold the result together But Mann means something radically different by a demonic energy field This is not your father's devil and this devil does not wear Prada Mann's demonic is real and intangible but not a supernatural force It is triggered by humans trying to control too much even if the control is ostensibly designed for a good purpose It happens when the end justifies the means Then the means can and often become anti humanitarian Does that sound familiar In the demonic energy field and like Doctor Faustus before him Leverkühn receives genius level energy but is rendered impotent of love the demonic destroying the freedom that is the foundation for love Genius powered Leverkühn produces serial music of a dissonant fragmented and irreconciled character His music is presented as the inevitable product of his pride twisted soul which also has the uncanny power to influence otherwise natural events toward evil In order to indicate that the same demonic process was at work on the national level in the case of the Nazis Leverkühn is given many of the personal characteristics of Hitler including syphilis and Leverkühn's biography is told in a brilliantly structured counterpoint against the last years of the Third Reich from 1943 to 1945 Hunting the Snark Robert Peters, 1989 Entries on Homophobic poetry and Homosexual poetry pp 180 185 Lesbian poems pp 206 211 Also see index for Homosexual poetry Wildlife in North Carolina , 1982 Forum , 1986
