The Breeder's Gazette, 1906 Comprehensive Plan Report on the Mississippi Coastal Improvements Program (MsCIP), Part 3 of 3, House Document 111-95, January 26, 2010, 111-2, 2010 Regenerating Dixie Casey Cater, 2019-06-05

Regenerating Dixie is the first book that traces the electrification of the US South from the 1880s to the 1970s. It emphasizes that electricity was not solely the result of technological innovation or federal intervention. Instead, it was a multifaceted process that influenced and was influenced by environmental alterations, political machinations, business practices, and social matters. Although it generally hewed to national and global patterns, southern electrification charted a distinctive and instructive path and, despite orthodoxies to the contrary, stood at the cutting edge of electrification from the late 1800s onward. Its story speaks to the ways southern experiences with electrification reflected and influenced larger American models of energy development. Inasmuch as the South has something to teach us about the history of American electrification, electrification also reveals things about the South's past. The electric industry was no mere accessory to the New South agenda; the ongoing project of rehabilitating Dixie after the Civil War and Reconstruction. Electricity powered industrialism, consumerism, urban growth, and war. It moved people across town, changed land and waterscapes, stoked racial conflict, sparked political fights, and lit homes and farms. Electricity underwrote people's daily lives across a century of southern history. But it was not simply imposed on the South. In fact, one of Regenerating Dixie's central lessons is that people have always mattered in energy history. The story of southern electrification is part of the broader struggle for democracy in the American past and includes a range of expected and unexpected actors and events. It also offers insights into our current predicaments with matters of energy and sustainability.

Manufacturers Record, 1924 The Northwestern Miller, 1905 Extending Play Alyxandra Vesey, 2024

Despite the hypervisibility of a constellation of female pop stars, the music business is structured around gender inequality. As a result, women in the music industry often seize on self-branding opportunities in fashion, cosmetics, food, and technology for the purposes of professional longevity. *Extending Play* examines the ubiquity of brand partnerships in the contemporary music industry through the lens of feminized labor to demonstrate how female artists use them as a resource for artistic expression and to articulate forms of popular feminism through self-commodification. In this book, author Alyxandra Vesey examines this type of promotional work and examines its proliferation in the early 21st century. Though brand partnerships exist across all media industries, they are a distinct phenomenon for the music business because of their associations with fan club merchandise, concert merchandise, and lifestyle branding, often foregrounding women's

participation in shaping these economies through fan labor and image management Through textual and discourse analysis of artists songs music videos interviews social media usage promotional campaigns marketing strategies and business decisions *Extending Play* investigates how female musicians co create branded feminine coded products like perfume clothes makeup and cookbooks and masculine coded products like music equipment as resources to work through their own ideas about gender and femininity as workers in industries that often use sexism and ageism to diminish women s creative authority and diminish the value of the recording in order to incentivize musicians to internalize the demands of industrial convergence By merging star studies popular music studies and media industry studies *Extending Play* proposes an integrated methodology for approaching contemporary cultural history that demonstrates how female identified musicians have operated as both a hub for industrial convergence and as music industry professionals who use their extramusical skills to reassert their creative acumen
