EBOOK: Social Research Tim May, 2011-03-16 This fully revised and updated popular text successfully bridges the gap between theory and methods in social research clearly illuminating these essential components for understanding the dynamics of social relations The book is divided into two parts with part one examining the issues and perspectives in social research and part two setting out the methods and processes Updates to this edition include A new chapter on case study research A new concluding chapter Links to additional websites and IT applications that are integrated throughout the book Updated experiential examples and scenarios More international examples The clear writing style chapter summaries questions for reflection and signposts to further readings continue to make this book the ideal companion to social research for students across the social sciences In addition it will be recognised as an invaluable source of reference for those practising and teaching social research who wish to keep abreast of key developments in the field With contributions from Beth Perry University of Salford and Carole Sutton University of Plymouth

EBOOK: Succeeding with your Master's Dissertation: A Step-by-Step Handbook John Biggam, 2018-02-16 What do I need to do to write a literature context or systematic review How do I explain my research methods and write up my findings Help How do I prepare for a viva This essential handbook carefully guides the student through the entire dissertation process from start to finish offering clear straightforward and practical advice Biggam uses clear illustrations of what students should do or not do to reach their full potential helping them to succeed with their dissertation and avoid common pitfalls along the way Thoroughly updated this popular book takes the student from research proposal through literature reviews research methods and writing up referencing and avoiding plagiarism through to submission and marking featuring New chapter on Introducing the Master s Dissertation focusing on the skills you need to succeed New material on Contextual Review for computer science art and performance art students Updated material on the benefits of using university library databases and social media in research Expanded advice on the emotional journey and where to find assistance and support New Research Methods chapter for art drama and computer science students This is key reading for any social science business humanities or healthcare student

required to complete a dissertation as part of their studies It will also prove useful for undergraduate students considering postgraduate studies and for supervisors facilitating dissertation supervision This book is a really excellent and friendly guide through the Master s dissertation process It is clearly and engagingly written and easily understandable to a student It also guides students gently from a general understanding in the first chapter down to a significant level of detail in each subsequent chapter with worked examples and relevant practical tips It also usefully highlights common mistakes The book presents a realistic view of undertaking a Master s degree presenting the generic skills needed for success and acknowledging that life outside the dissertation is complex messy and can sometimes get in the way It is particularly useful and relevant to my students as unlike many other books on this topic it does not ignore practice based forms of research in fact the book includes a substantial chapter on practice as research in the creative disciplines This chapter includes software alongside creative arts and is therefore particularly suitable for inter or multi disciplinary postgraduates using technology to enhance their existing understanding of a subject or their practice through research I also really like the fact that the chapter on Abstracts is at the end where it belongs and that students are explicitly told to write it last no matter how many times I tell my students this it is a common and recurring mistake Daisy Abbott School of Simulation and Visualisation The Glasgow School of Art UK The dissertation component of a Master s programme can be very daunting for students In this book John Biggam demystifies both the concept and process of a dissertation Biggam clearly explains the different parts of a dissertation and offers a pragmatic structure which can be used by students to help frame their ideas Also the guidance given in the book is written in a reassuring tone which is never patronising The summary on good practise in dissertation writing should be particularly useful during the planning stage and as a final check for students Dr Donna Murray SFHEA Head of Taught Student Development Institute for Academic Development The University of Edinburgh UK

Qualitative Online Interviews Janet Salmons,2014-04-28 The Second Edition of Qualitative Online Interviews by Janet Salmons provides researchers the guidance they need to extend the reach of their studies beyond physical boundaries Focusing on designing conducting and assessing data drawn from online interviews as well as from observations materials and artifacts collected online the book emphasizes the use of in depth interviews in qualitative research or mixed methods designs Written in an easy to read manner the thorough Second Edition offers the practical information and scholarly foundations needed to make thoughtful decisions in technology infused research

Qualitative Online Interviews Janet Salmons,2014-04-28 The Second Edition of Qualitative Online Interviews by Janet Salmons provides researchers the guidance they need to extend the reach of their studies beyond physical boundaries Focusing on designing conducting and assessing data drawn from online interviews as well as from observations materials and artifacts collected online the book emphasizes the use of in depth interviews in qualitative research or mixed methods designs Written in an easy to read manner the thorough Second Edition offers the practical information and scholarly foundations needed to make thoughtful decisions in technology infused

research Advances in Web Based Learning - ICWL 2007 Howard Leung, Frederick Li, Rynson Lau, Qing Li, 2008-03-14 This year we received a record high of about 180 submissions to ICWL 2007 From these a total of 55 full papers plus one keynote paper were accepted for this LNCS proceedings volume representing an acceptance rate of about 30% The authors of these accepted papers were of a remarkable international diversity We would like to thank all the reviewers for spending their precious time reviewing the papers and for providing valuable comments that aided significantly in the paper selection process Authors of the best papers presented at this conference will be invited to submit extended versions of their papers for possible publication in 1 a special issue of IEEE Trans on Knowledge and Data Engineering for those papers relevant to knowledge and data engineering and 2 a special issue of the International Journal of Distance Education Technologies JDET for papers of other areas This was the first time that the ICWL conference was organized in Europe and 27 papers were from European researchers We would like to thank our Organization Chair Dr Taku Komura for spending an enormous amount of energy in coordinating the local arrangements In fact we would like to thank the entire conference organization committee for their hard work in putting together the conference In particular we would like to express our appreciation to our Registration Chair Dr The Beginner's Guide to Doing Qualitative Research Erin Horvat, 2013-05-05 EDUCATION Research **Conducting Qualitative Research of Learning in Online Spaces** Hannah R. Gerber, Sandra Schamroth Abrams, Jen Scott Curwood, Alecia Marie Magnifico, 2016 *Doing Qualitative Research* David Silverman, 2013-04-22 In the fourth edition of his best selling textbook David Silverman provides a step by step guide to planning and conducting qualitative research Using real examples from real postgraduate students the book makes it easy to link theory to methods and shows how to move from understanding the principles of qualitative research to doing it yourself The new edition has been fully updated and now includes a brand new chapter on formulating a research question appropriate for qualitative research an expanded discussion of the role of theory in research extended discussion of case study research and the number of cases needed for effective qualitative research further coverage of focus groups and analysing internet data new student examples from around the world a new section on the common pitfalls encountered in qualitative research an expanded companion website with more student examples and videos Filled with exercises to test your understanding and develop your skills as well as David's own tips for research success based on years of experience this book is essential reading for anyone doing qualitative research Available with Perusall an eBook that makes it easier to prepare for class Perusall is an award winning eBook platform featuring social annotation tools that allow students and instructors to collaboratively mark up and discuss their SAGE textbook Backed by research and supported by technological innovations developed at Harvard University this process of learning through collaborative annotation keeps your students engaged and makes teaching easier and more effective Learn more Cases in Online Interview Research Janet Salmons, 2011-11-08 In an era of constrained research budgets online interviewing opens up immense possibilities a researcher can literally conduct a global study

without ever leaving home But more than a decade after these technologies started to become available there are still few studies on how to utilize online interviews in research This book provides 10 cases of research conducted using online interviews with data collected through text based videoconferencing multichannel meetings and immersive 3 D environments Each case is followed by two commentaries one from another expert contributor the second from Janet Salmons as editor

Doing Qualitative Research in Psychology Michael A Forrester, 2010-03-25 Electronic Inspection Copy available for instructors here Providing a complete introduction to qualitative methods in psychology this textbook is ideal reading for anyone doing a research methods course in psychology that includes qualitative approaches or someone planning a practical project using qualitative methods Not just another research methods book *Doing Qualitative Research in Psychology* is more a how to do it manual linked with a specifically designed set of digitised video recordings transcripts and online resources to make learning about qualitative methods as easy as possible The primary resources are a set of online publically available video recorded interviews produced by the editor and contributors to support student learning The text offers useful descriptions of how and why research questions are formulated and explains the importance of selecting appropriate methods for research investigations Using examples from the specially produced data set it describes four specific qualitative methods outlining in its very clear how to proceed style how each of these methods can form the basis of a qualitative methods laboratory class practical or field study As well as covering key topics such as ethics literature reviews and interviewing the book also describes precisely how research reports using qualitative methods are written up in line with the appropriate conventions within psychology Companion website resources can be found here **Doing Qualitative**

conclusions Cheat sheets and reflective trackers students can use to monitor their progress and plan and manage projects Interactivity only available through VitalSource eBook included as part of paperback product ISBN 9781526441614 Access not guaranteed on second hand copies as access code may have previously been redeemed

Doing Qualitative Research in a Digital World Trena M. Paulus, Jessica N. Lester, 2021-01-28 While some qualitative methods texts touch upon online communities as a potential data source show how to conduct interviews and focus groups online or select recording devices and analysis software no book to date has guided readers in the creation of a comprehensive digital workflow for their research By working through each chapter in this book readers will be able to generate a unique digital workflow for designing and implementing their research The book provides a deep exploration of the relationship between theories of technology substantive theories and methodological theory and shows how together these inform the development of a quality research design The authors include vignettes narratives written by qualitative researchers describing cutting edge use of digital tools and spaces and also give examples of published studies which together provide practical illustration of the content Woven throughout is explicit attention to ethical challenges that are likely to be faced by researchers when adopting digital tools The book invites readers to engage in a critical appraisal of the role of technology in qualitative research through reflection conversation and engagement with the larger community of researchers

Doing Qualitative Research Differently Wendy Hollway, Tony Jefferson, 2000-04-28 This is both a how to book and one that critically reviews many of the assumptions claims and methods of qualitative research Applying a psycho social understanding of subjectivity to research practice involves conceptualising researcher and researched as co producers of meanings in the research relationship The authors use the notion of the defended subject to indicate that people will defend themselves against any anxieties in the information they provide in a research context To interpret interviewees responses should entail developing a method in which narratives are central as should a strategy of interpretation in which interviewees free associations are given precedence over narrative coherence The author

Qualitative Research David Silverman, 2016-06-16 A who s who of methodologists this book introduces students to the big picture of qualitative research teaching both the why and the how to of getting started selecting a method and conducting research and data analysis With practical tips summaries exercises and further reading each chapter is like a masterclass from a leading scholar in qualitative research New to the fourth edition A streamlined structure to guide readers step by step through the research process Substantial new section with 4 chapters on how to collect and analyse online data A new chapter on reflexive ethnography More hands on advice on how to conduct research at every stage making this a perfect field handbook Updated reading lists provide a go to guide to the literature and help improve citations The most comprehensive qualitative research book available this is the perfect all in one companion for any student embarking on a qualitative research course or project Available with Perusall an eBook that makes it easier to prepare for class Perusall is an award winning eBook platform featuring social annotation tools that allow students and

instructors to collaboratively mark up and discuss their SAGE textbook Backed by research and supported by technological innovations developed at Harvard University this process of learning through collaborative annotation keeps your students engaged and makes teaching easier and more effective Learn more *Doing Qualitative Research* M. Ely,1991-04

Qualitative Online Interviews Janet Salmons,2014 The Second Edition of Qualitative Online Interviews provides researchers the guidance they need to extend the reach of their studies beyond physical boundaries Focusing on designing conducting and assessing data drawn from online interviews as well as from observations materials and artifacts collected online the book emphasizes the use of in depth interviews in qualitative research or mixed methods designs Written in an easy to read manner the thorough Second Edition offers the practical information and scholarly foundations needed to make thoughtful decisions in technology infused research The SAGE Handbook of Online Research Methods Nigel G Fielding,Raymond M Lee,Grant Blank,2008-06-24 This handbook is the first to provide comprehensive up to the minute coverage of contemporary and developing Internet and online social research methods spanning both quantitative and qualitative research applications The editors have brought together leading names in the field of online research to give a thoroughly up to date practical coverage richly illustrated with examples The chapters cover both methodological and procedural themes offering readers a sophisticated treatment of the practice and uses of Internet and online research that is grounded in the principles of research methodology Beginning with an examination of the significance of the Internet as a research medium the book goes on to cover research design data capture online surveys virtual ethnography and the internet as an archival resource and concludes by looking at potential directions for the future of Internet and online research The SAGE Handbook of Internet and Online Research Methods will be welcomed by anyone interested in the contemporary practice of computer mediated research and scholarship Postgraduates researchers and methodologists from disciplines across the social sciences will find this an invaluable source of reference
