In Crime's Archive Katherine Biber, 2018-07-04 This book investigates what happens to criminal evidence after the conclusion of legal proceedings During the criminal trial evidentiary material is tightly regulated it is formally regarded as part of the court record and subject to the rules of evidence and criminal procedure However these rules and procedures cannot govern or control this material after proceedings have ended In its afterlife criminal evidence continues to proliferate in cultural contexts It might be photographic or video evidence private diaries and correspondence weapons physical objects or forensic data and it arouses the interest of journalists scholars curators writers or artists Building on a growing cultural interest in criminal archival materials this book shows how in its afterlife criminal evidence gives rise to new uses and interpretations new concepts and questions many of which are creative and transformative of crime and evidence and some of which are transgressive dangerous or insensitive It takes the judicial principle of open justice the assumption that justice must be seen to be done and investigates instances in which we might see too much too little or from a distorted angle It centres upon a series of case studies including those of Lindy Chamberlain and more recently Oscar Pistorius in which criminal evidence has reappeared outside of the criminal process Traversing museums libraries galleries and other repositories and drawing on extensive interviews with cultural practitioners and legal professionals this book probes the legal ethical affective and aesthetic implications of the cultural afterlife of evidence
