*Marketcrafters* Chris Hughes,2025-04-22 A revelatory and unexpected history of the rise of American capitalism and an argument that entrepreneurial leaders in government not the mythical free market created the most dynamic economy the world has ever known For many decades a sacred myth has ruled the minds of policymakers and business leaders free markets untouched by the soiled hands of government bring us prosperity and stability But it s wrong American policy makers on the right and the left have spent much of the past century actively shaping our markets for social and political goals Their work behind the scenes and out of the headlines has served as a kind of marketcraft resembling the statecraft of international relations Economist and writer Chris Hughes takes us on a journey through the modern history of American capitalism relating the captivating stories of the most effective marketcrafters and the ones who bungled the job He reveals how both Republicans and Democrats have consistently attempted to organize markets for social and political reasons like avoiding gasoline shortages reducing inflation fostering the American aviation and semiconductor industries fighting climate change and supporting financial innovation In recent decades the art of marketcraft has been lost to history replaced by the myth that markets work best when they are unfettered and free Hughes argues that by rediscovering the triumphs and failures of past marketcrafters we can shape future markets such as those in artificial intelligence and clean power production to be innovative stable and inclusive Groundbreaking timely and illuminating this is a must read for anyone interested in economic policy financial markets and the future of the American economy *Before the Neoliberal Turn* Simone Selva,2017-10-31 This book pinpoints continuities and changes in U S foreign economic policy from the fixed exchange rate system of the 1960s through to the period between the two oil crises of the 1970s Chapters pay close attention to the interconnectedness between the long lasting decline of the U S Dollar on foreign exchange markets and the U S balance of payments transformations in international capital markets and international oil developments The book charts the prolonged failure of Washington s foreign economic policies to restore U S financial and monetary leadership through to the Carter Administration **American Empire and the Political Economy of Global Finance** L. Panitch,M. Konings,2008-07-24 In a lively critique of how international and comparative political economy misjudge the relationship between global markets and states this book demonstrates the central place of the American state in today s world of globalized finance The contributors set aside traditional emphases on military intervention looking instead to economics **The Re-Emergence of Global Finance** G. Burn,2006-04-19 Gary Burn examines how in 1950s London City bankers invented a new form of money and escaped offshore beyond the jurisdiction of monetary authority This is the story of the Eurodollar and the re emergence of global capital It tells how the City discarded sterling and reclaimed its historic role as the world s foremost financial centre **States and the Reemergence of Global Finance** Eric Helleiner,2015-07-14 Most accounts explain the postwar globalization of financial markets as a product of unstoppable technological and market forces

Drawing on extensive historical research Eric Helleiner provides the first comprehensive political history of the phenomenon one that details and explains the central role played by states in permitting and encouraging financial globalization Helleiner begins by highlighting the commitment of advanced industrial states to a restrictive international financial order at the 1944 Bretton Woods conference and during the early postwar years He then explains the growing political support for the globalization of financial markets after the late 1950s by analyzing five sets of episodes the creation of the Euromarket in the 1960s the rejection in the early 1970s of proposals to reregulate global financial markets four aborted initiatives in the late 1970s and early 1980s to implement effective controls on financial movements the extensive liberalization of capital controls in the 1980s and the containment of international financial crises at three critical junctures in the 1970s and 1980s He shows that these developments resulted from various factors including the unique hegemonic interests of the United States and Britain in finance a competitive deregulation dynamic ideological shifts and the construction of a crisis prevention regime among leading central bankers In his conclusion Helleiner addresses the question of why states have increasingly embraced an open liberal international financial order in an era of considerable trade protectionism

**Unwitting Architect** Julian Germann, 2021-01-05 The global rise of neoliberalism since the 1970s is widely seen as a dynamic originating in the United States and the United Kingdom and only belatedly and partially repeated by Germany From this Anglocentric perspective Germany's emergence at the forefront of neoliberal reforms in the eurozone is perplexing and tends to be attributed to the same forces conventionally associated with the Anglo American pioneers This book challenges this ruling narrative conceptually and empirically It recasts the genesis of neoliberalism as a process driven by a plenitude of actors ideas and interests And it lays bare the pragmatic reasoning and counterintuitive choices of German crisis managers that are obscured by this master story Drawing on extensive original archival research this book argues that German officials did not intentionally set out to promote neoliberal change Instead they were more intent on preserving Germany's export markets and competitiveness in order to stabilize the domestic compact between capital and labor Nevertheless the series of measures German policy elites took to manage the end of golden age capitalism promoted neoliberal transformation in crucial respects it destabilized the Bretton Woods system it undermined socialist and social democratic responses to the crisis in Europe it frustrated an internationally coordinated Keynesian reflation of the world economy and ultimately it helped push the US into the Volcker interest rate shock that inaugurated the attack on welfare and labor under Reagan and Thatcher From this vantage point the book illuminates the very different rationale behind the painful reforms German state managers have demanded of their indebted eurozone partners

*Structural Adjustment Reform, Politics and Government Political Projects* Daniel M. Green, 1992

**Globalization and the Erosion of National Financial Systems** Marc Schaberg, 1999 Schaberg U of California Riverside empirically examines the patterns of sources and uses of funds in the non financial enterprise sectors of the US Britain France Japan and Germany He investigates how the uses of finance vary across

the five countries and finds significant differences across financial systems He also provided recent data on the sources of financing and the juxtaposition of the two data sets allows him to determine whether the structures of the financial systems in those countries have converged as financial market globalization has proceeded **Forthcoming Books** Rose Arny,2004

*Hidden Lives and Human Rights in the United States* Lois Ann Lorentzen,2014-07-23 The most comprehensive collection of essays on undocumented immigration to date covering issues not generally found anywhere else on the subject Three fascinating volumes feature the latest research from the country's top immigration scholars In the United States the crisis of undocumented immigrants draws strong opinions from both sides of the debate For those who immigrate concerns over safety incorporation and fair treatment arise upon arrival For others the perceived economic political and cultural impact of newcomers can feel threatening In this informative three volume set top immigration scholars explain perspectives from every angle examining facts and seeking solutions to counter the controversies often brought on by the current state of undocumented immigrant affairs Immigration expert and set editor Lois Lorentzen leads a stellar team of contributors laying out history theories and legislation in the first book human rights sexuality and health in the second and economics politics and morality in the final volume From family separation to human trafficking to notions of citizenship this provocative study captures the human costs associated with this type of immigration in the United States questions policies intended to protect the American way of life and offers strategies for easing tensions between immigrants and natural born citizens in everyday life *Inside Capitalism; An Introduction to Political Economy* Paul Phillips,2007 These Days Almost Anyone Is Bound To Be Depressed By The Litany Of Economic Woes Besieging Canada Mainstream Economists Politicians And Business Leaders Claim That Workers Wages Must Fall That The Social Safety Net Must Be Stripped Away That Taxes Must Be Cut And That Environmental Regulations Must Be Relaxed There Is No Alternative We Are Told If Canada Is To Be Competitive But Is This Really The Case If We Are To Even Begin To Respond To This New Economic Mantra We Have To Know What Makes Our Economy Tick In *InsideCapitalism* Paul Phillips Introduces Us To Political Economic Analysis That Explains Why Firms Behave As They Do Why We Have Such A High Level Of Economic Monopoly And Who Benefits From The Economic Structure Of Capitalism In So Doing Phillips Shows Us That Traditional Economic Analysis Is Mainly Ideology Clearly The Dismal Prospects That Average Canadians Face Are Not The Result Of Immutable Economic Laws But Rather Due To The Political And Economic Power That Business Has Amassed With The Aid Of Successive Governments And The Bank Of Canada [The Cumulative Book Index](#) ,1999 *American Book Publishing Record Cumulative 1998* R R Bowker Publishing,1999-03 **Dollars & Borders** James P. Hawley,1987 **Far East and Australasia 2008** Europa Publications,Routledge Staff,2007-11-15 A systematic survey of all the countries of East Asia South East Asia Australia New Zealand and the Pacific Islands Essential for anyone with a professional interest in the region Keeps up to date with current economic and political developments Part One General Survey Written by acknowledged authorities on the Pacific Rim this

collection of essays forms an impartial overview of the area as a whole Topics include regional security issues human rights environmental issues recent economic trends and USA s relations with the Asia Pacific region Country Surveys Individual chapters on each country containing articles on geography history and the economy an economic and demographic survey of the latest available statistics on population agriculture industry finance trade transport tourism and education a directory of names addresses and contact numbers covering the constitution government legislature judiciary political organizations diplomatic representation religion the media finance trade industry tourism defence and education a select bibliography Regional Information Includes all major international organizations active in the region their aims activities publications and principal personnel a detailed survey of major commodities in Asia and the Pacific a directory of research institutes specializing in the region select bibliographies of books and periodicals covering the Far East and Australasia and an index of regional organizations International Political Economy Thomas Oatley,2006 Emphasizing both domestic and international politics as well as fundamental economic principles International Political Economy is the field s most accessible and holistic overview of the global economy While surveying key IPE theories economic principles institutions and processes the text explains how international competition raises social welfare but also creates winners and losers who influence the policies of governments and international institutions and ultimately the global economy BOOK JACKET **PAIS Bulletin** ,1990
