*Domestic Politics and Drought Relief in Africa* Ngonidzashe Munemo, 2012 Ngonidzashe Munemo challenges the conventional wisdom that African governments lack the technical capacity and political will to respond to drought and the threat of famine Through a comparative analysis of three politically disparate countries Botswana Kenya and Zimbabwe Munemo demonstrates that differences in the ways that governments face similar drought induced food crisis are the result not of incompetence but of rational political considerations His original analysis shows why in democracies and authoritarian regimes alike the less effective option is so often the policy choice Liber Amicorum Marius Paul Olivier, Letlhokwa George Mpedi, Evance Kalula, 2020-12-10 Though some may categorise this work as a memorial publication this book of friends is truly a celebratory publication by colleagues from Africa and beyond who had the privilege to know Edwell and Mathias personally It is a tribute to the life and work of two individuals that each made a unique contribution to social justice law and its development As evidenced by the Tributes and Lists of Publications contained herein both Edwell and Nyenti as they were colloquially known were productive scholars but they leave a legacy that extends beyond the academic realm to that of friendship and shared humanity *Choice*, 2000
