**Challenges and Persistent Hope** Paul F. McCleary, 2018-07-24 Methodism did not function in a void It was carrying out its mission in an environment charged with dynamic change To fully understand the history of Methodism in Southern California one has to find a way to allow one's mind to alter as far as possible into the conditions and events of the period As we are so keenly aware today these circumstances determine the success or failure of the church to carry out its mission While Methodism was an early arrival in California within fifty years the environment was changing to one that was highly

competitive In addition the political environment was changing to a more conservative one while Methodism s leadership and ministerial training of its clergy were more liberal Added to these external complexities there were internal difficulties unique to Methodism that needed to be resolved The task ahead is to examine the challenges and accomplishments of California Pacific Conference from 1945 to the present *Philippine Journal of Education* ,1999 *The Intellectualization of Filipino and Other Sociolinguistic and Education Essays* Bonifacio P.
