E. Smith,2015-11-03 As has been said The Hill which had been built to be the Tellurian headquarters of the Triplanetary Service and which was now the headquarters of the half organized Solarian Patrol was and is a truncated alloy sheathed honey combed mountain But since human beings do not like to live eternally underground no matter how beautifully lighted or how carefully and comfortably air conditioned the dungeon may be the Reservation spread far beyond the foot of that gray forbidding mirror smooth cone of metal Well outside that farflung Reservation there was a small city there were hundreds of highly productive farms and particularly upon this bright May afternoon there was a Recreation Park containing among other things dozens of tennis courts One of these courts was three quarters enclosed by stands from which a couple of hundred people were watching a match which seemed to be of some little local importance Two men sat in a box which had seats for twenty and watched admiringly the pair who seemed in a fair way to win in straight sets the mixed doubles championship of the Hill Fine looking couple Rod if I do say so myself as well as being smooth performers Solarian Councillor Virgil Samms spoke to his companion as the opponents changed courts I still think though the young hussy ought to wear some clothes those white nylon shorts make her look nakeder even than usual I told her so too the jade but she keeps on wearing less and less     **First Lensman** E. E. 'Doc' Smith,2021-11-19 Reprint of EE Doc Smith's classic Lensman Series newly edited and annotated     First Lensman E.E. "Doc" Smith,2022-05-15 The enemy spacefleet arrowed toward the armored mountain nerve center of the Galactic Patrol The Patrol battle cruisers swerved to meet them and a miles long cone of pure energy ravened out at the invaders destroying whatever it touched But the moment before the force beam struck thousands of tiny objects dropped from the enemy fleet and faster than light flashed straight at their target each one an atom bomb powerful enough to destroy Patrol Headquarters by itself The Galactic Patrol and civilization itself had seconds to live Unless a miracle happened     Galactic Patrol Edward Elmer 'Doc' Smith,2021-12-27 If you are looking for LARGE PRINT paperback editions of EE Doc Smith's Lensman series please stop scrolling and see if mine are right for you You'll be glad you did I loved doing this large print edition using the Open Dyslexia 3 font I thought the font was a little wierd at first but I realized after working with it that I was enjoying reading more So maybe I'm dyslexic At any rate this is a fantastic reading experience The cover art

comes from the Hubble Space telescope is fantastic as well This is the ONLY LARGE PRINT version of EE Doc Smith s classic space opera out there that I know of When Lensman Kim Kinnison of the Patrol discovered the secret Boskonian base it was invulnerable to outside attack But where a battle fleet would meet insuperable resistance a single infiltrator might penetrate the Boskonian defenses if he had the guts to take on million to one odds Kinnison had the guts enough to take on the odds even with the future of the civilized Universe riding on his shoulders Newly edited and fully annotated this fresh edition of EE Doc Smith s classic has been lovingly formatted and printed on groundwood trade paperback paper in an effort to get the feel of the original experience reading the old Panther 1970s and earlier printings The text has been carefully checked This is a LARGE PRINT EDITION      **First Lensman** Edward Elmer Smith,1950      **Galactic Patrol** E. E. Smith,2017-09-30 Galactic Patrol introduces Kimball Kinnison who will be the hero of the next four books Galactic Patrol Gray Lensman Second Stage Lensmen and to a lesser extent Children of the Lens Kinnison and Clarissa MacDougall are the penultimates of the human breeding program the Arisians set up many eons earlier The book deals with the earliest stages of Kinnison s career starting with his graduation as a Lensman from the Patrol s academy Organized pirates known as Boskonians have gained a great advantage with a new type of space drive making their ships far faster than anything the Patrol can build That is with the exception of one ship the Britannia New and experimental built to be the fastest thing in space she has abandoned the traditional ray armament of a space ship for an offensive weapon much older explosive artillery fired at an opponent held in place by unbreakable tractor beams Her mission is to capture a Boskonian ship of the new type intact enough to get the secret of her speed hence the artillery which the scientists of the patrol think can damage another ship enough to disable it without destroying the information they require The experimental nature of her weapon means that she would be useless to a man experienced only in using the standard weapons of the time so she is given to the inexperienced Kinnison to command

Lensman is the second self contained novel in E E Doc Smith s epic Lensman series one of the all time classics of adventurous galaxy spanning science fiction We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience      *Children of the Lens* Edward Elmer 'Doc' Smith,2021-01-03 The terminus of the Patrol s hyper spatial tube erupted into space alongside the enemy planet It would be in existence for exactly three seconds Through that tube was traveling the ultimate weapon an utterly foreign planet with an absolutely impossible intrinsic velocity whose kinetic energy could be measured only in infinities But what would happen after it erupted into normal space no one not even its brilliant creators could predict with certainty All they knew was that if the weapon didn t totally destroy Ploor instantly Earth s galaxy had exactly three seconds left to live Newly edited and fully annotated this fresh edition of EE Doc Smith s classic has been lovingly formatted and printed on groundwood trade paperback paper in an effort to get the feel of the original experience reading the old Panther 1970s and earlier printings The text has been carefully checked      **Children of the Lens** Edward Elmer 'Doc' Smith,2022-07 If you are looking for LARGE PRINT paperback editions of EE Doc Smith s Lensman series please stop scrolling and see if mine are right for you You ll be glad you did In this LARGE PRINT Edition I have used the 16 point Open Dyslexic 3 Font It s very readable In fact after working with this font I love it so perhaps I m a little Dyslexic But seriously I loved making this edition It looks and reads great I have done some basic editing on the text I have focused mainly on grammar not with a heavy hand but just to improve the flow for a contemporary reader The manuscripts are formatted in such a way as to use a heavy arsenal of punctuation italics capitalization capitalization with italics exclamations double and triple exclamations ellipses dashes and more The purpose was clearly to create emphasis and tension but often it impedes the flow So these things were revisited I considered removing all italics completely at one stage but relented It is Space Opera after all I have provided annotations as a value add proposition These are not necessarily scholastic some are but mainly my thoughts about how certain aspects of the stories reflect in other works stuff like Star Trek which owes a heavy debt The thing about these stories is they come at the beginning of classic science fiction and had a huge impact certainly on my generation and others as well So we know how science fiction worked out Smith did not know that He had no idea For all he knew his stories could easily have been forgotten long ago but they weren t That s because they re still worth reading But the books need to be accessible

in a form that does them justice With respect to the cover art well I don t have the wherewithal to do something of the unforgettable vision and imagination of a Chris Foss But the Hubble Space Telescope has provided something that EE Doc Smith himself would have found amazing I am sure Enjoy this voyage back to the classic age of science fiction
