City Library contains the world's largest collection of works by and about Desiderius Erasmus 1469-1536 perhaps Rotterdam's most famous son. The origin of this unique collection dates back to the seventeenth century when the city fathers established a library in the Great or St Laurence Church. This bibliography of the Erasmus collection lists for the first time all of the Rotterdam scholar's works and most of the studies written about him from his time to the present day. The collection is of vital importance to Erasmus studies and has in many cases provided the basic material for editions of Erasmus's complete works. In addition to the unique sixteenth-century printings listed in this book, the collection includes many translations into Estonian, Polish, Russian, Czech, Hebrew, and other languages. The Rotterdam Library has acquired publications about Erasmus that cover such topics as his life, work, and times; his contemporaries; his humanism, pedagogy, pacifism, and theology; his relationship to Luther and the Reformation; and his influence on later periods. The collection numbers as of 1989 roughly 5 000 works, divided as follows: 2 500 works by Erasmus himself; 500 works edited by him; and 2 000 books and articles about him. This bibliographic resource will be of great value to Erasmus scholars, philosophy researchers, and historians studying the path of philosophical and religious thought.

*Erasmus* Johan Huizinga, 2021-08-31 Huizinga was een van de eersten die een genuanceerde biografie schreef over de zestiende eeuwse Nederlandse humanist Desiderius Erasmus. Het werk heeft niet alleen een enorme historische waarde, maar getuigt ook van Huizinga's literaire talent. Het beeldende taalgebruik dat Huizinga zo typeert, vinden we erin terug. Zo ontstaat er tegen een achtergrond van feiten een schilderachtig portret van de humanist en wereldburger die zich staande wist te houden in het midden van het politieke en religieuze gewoel van zijn tijd. De Nederlander Johan Huizinga (1872-1945) was historicus, antropoloog en cultuurfilosoof. Hij is de grondlegger van de Nederlandstalige cultuur- en mentaliteitsgeschiedenis. Zijn *Herfsttij der Middeleeuwen* (1919), *Erasmus* (1924) en *Homo Ludens* (1938) worden tot zijn belangrijkste werken gerekend. Uit zijn werk blijkt een voorliefde voor sprookjes en bewondering voor de middeleeuwse ridderlijke ethiek. Vanwege het sterke literaire karakter van zijn werk is Huizinga meermaals genomineerd voor de Nobelprijs voor de literatuur.
