Efficiency Equity And Legitimacy The Multilateral Trading System At The Millennium:

Efficiency, Equity, and Legitimacy Roger B. Porter, 2001 Despite its widely acknowledged contribution to global prosperity over the past half century the movement toward further liberalization has increasingly been challenged This collection of essays examine several key issues at the heart of the debate over the multilateral trading system Efficiency, Equity and Legitimacy ,2000 *Trading Services in the Global Economy* Juan R. Cuadrado Roura, Luis Rubalcaba-Bermejo, J. R. Bryson, 2002-01-01 This book provides one of the first interdisciplinary reviews of the relationship between services globalisation and trade liberalisation as we enter the twenty first century Written by academics and policymakers it contains a detailed analysis of the characteristics of service trade and of recent and current service trade negotiations

Transparency in International Trade and Investment Dispute Settlement Junji Nakagawa, 2013 First Published in 2013 Routledge is an imprint of Taylor Francis an informa company *The Path of World Trade Law in the 21st Century* Steve Charnovitz, 2014-11-07 The advent of the World Trade Organization WTO in 1995 transformed international economic law for states enterprises and nongovernmental organizations This book analyzes how the WTO is changing the path of international trade law and examines the implications of these trends for the world economy and the global environment Containing 18 essays published from 1999 to 2011 the book illuminates several of the most complex issues in contemporary trade policy Among the topics covered are Is there a normative theory of the WTO s purpose Can constitutional theory provide guidance to keep the WTO s levers in balance Should the WTO use trade sanctions for enforcement What can the WTO do to enhance sustainable development and job creation **Authority in the Global Political Economy** V. Rittberger, M. Nettesheim, 2008-03-27 This volume analyzes changing patterns of authority in the global political economy with an in depth look at the new roles played by state and non state actors and addresses key themes including the provision of global public goods new modes of regulation and the potential of new institutions for global governance *The Future of the Multilateral Trading System* Akira Kotera, Ichirō Araki, Tsuyoshi Kawase, 2009 *The European Union and the New Trade Politics* JOHN PETERSON, Alasdair Young, 2013-10-18 The politics of international trade have changed dramatically over the past 20 years Advances in technology have spurred a new kind of trade involving transfers of components and materials across borders but within firms Trade in services foreign direct investment and sales by affiliates of foreign owed companies have grown more rapidly than trade in goods making national rules and regulations more significant barriers to trade The effects of non trade policies on trade have engaged new actors in trade politics not least in the European Union EU The emergence of a more active bloc of developing countries alongside a vibrant international civil society including environmental and consumer groups and ministries have made trade politics increasingly lively complex and challenging for the EU Meanwhile the World Trade Organization has become not only a primary focus for EU trade policy but also a lightning rod for protest a powerful legaliser of trade diplomacy and an arena where it is often difficult even impossible to separate private from public interests

The European Union and the New Trade Politics provides a state of the art analysis of how the EU shapes and is shaped by the new trade politics This book was previously published as a special issue of The Journal of European Public Policy

Financing Development Michele Fratianni, 2016-04-15 The critical challenge of financing development and sustainability is a key focus for the world's international financial institutions led by the International Monetary Fund the World Bank and above all the G8 This volume assesses the current practice and perspectives of the major developed world countries that dominate the boards of the IMF and the World Bank and comprise the G8 It looks at the prospects for meeting the Millennium Development Goals in the most impoverished region of Africa the way trade and finance instruments can help and how the challenges of energy security and climate change control will affect the results This volume offers in depth analysis of how the Millennium Development Goals are to be met North to South resource transfers the challenges of controlling climate control beyond Kyoto In sum this volume provides a critical and creative examination of what the G8 governments especially at and after the 2005 Gleneagles summit have done and what they should do to promote development and sustainability **Journal of Economic Literature** ,2002 *Journal of World Trade* ,2007-02 Reforming the World Trading System Ernst-Ulrich Petersmann, James Harrison, 2005 The 1994 agreement establishing the World Trade Organization WTO regulates over 95% of world trade amongst 148 member countries The November 2001 Declaration of the Fourth Ministerial Conference of the WTO in Doha Qatar has launched the Doha Development Round of multilateral trade negotiations in the WTO on 21 topics aimed at far reaching reforms of the world trading system On August 1st 2004 the WTO General Council reached agreement on a detailed Doha Work program with the aim of concluding negotiations in 2006 This volume provides discussion and policy recommendations by leading WTO negotiators and policy makers and analysis by leading economists political scientists and trade lawyers on the major subjects of the Doha Round negotiations Over 30 contributors explore the complexity of the world trading system and of the WTO negotiations for its reform from diverse political economic and legal perspectives The Constitutionalization of the World Trade Organization Deborah Z. Cass, 2005 This is a book about the constitutionalization of the World Trade Organization and the contemporary development of institutional forms and democratic ideas associated with constitutionalism within the world trading system It is about constitutionalization enthusiasts who promote institutions management techniques rights discourse and quasi judicial power to construct a constitution for the WTO It is about constitutional skeptics who fear the effect the phenomenon of constitutionalization is having on the autonomy of states the capacity of the WTO to consider non economic and non free trade goals and democratic processes at the WTO and within the nation state The aim of the study then is to disentangle debates about the various meanings of the term constitution when it used to apply to the World Trade Organization and to reflect upon the significance of those meanings for more general international law conceptions of constitutions Cass argues that the WTO is not and should not be described as a constitution either by the standards of any received account of that

term or by the lights of any of the current WTO models Under these definitions serious issues of legitimacy democracy and community are at stake The WTO would lack a proper political structure to balance the work of its judicial bodies it may curtail the ability of states to decide matters of national economic interest it lacks authorization by a coherent political community and it risks an emphasis upon economic goals and pure free trade over other equally important social values Instead Cass argues that what is needed is a constitutionalized WTO which considers the economic development needs of states and takes account of the skewed playing field of international trade and its effect on the economic prospects of developing countries In short trading democracy legitimacy and community and not trading constitutionalization are the biggest challenges facing the WTO *Symposium* ,2006 New Directions in Global Political Governance John J. Kirton,Jun'ichi Takase,2002 Focused on politics and security this volume extends the G8 and Global Governance series into the domain of international security in both its classic and newer forms Going beyond the conventional focus on globalization it takes up the central question of shaping international order looking at the emergence of several important phenomena including The advent of human security The global importance of once deeply domestic security issues Enhanced demands for civil society participation Sections on Japan s perspective on the G8 and international order critical issues in global security governance and the role of international institutions and American leadership therein make this a distinctive account of international security in the 21st century **Hispanic Link Weekly Report** ,2002 *Tulane Journal of International and Comparative Law* ,2006 Strategy & Business ,2001 *Who's in Charge?* Sikina Allaudin Jinnah,2008 **Cases and Materials on Environmental Law** Daniel A. Farber,Jody Freeman,Ann E. Carlson,2010 The Eighth Edition provides up to date treatment of climate change issues This classic casebook provides students with a thorough understanding of all major federal environmental regulatory schemes as well as insight into current policy controversies Particular attention is given to the proper role of cost benefit analysis the appropriate judicial role in reviewing agency decisions and the impact of constitutional decisions relating to federalism standing and takings It also covers the latest Supreme Court cases on subjects from Superfund to water pollution as well as the major regulatory changes in the first year of the Obama Administration
