Description :

This publication identifies and discusses important challenges affecting eHealth in the EU and North America in the three areas of law, ethics and governance. It makes meaningful contributions to the eHealth discourse by suggesting solutions and making recommendations for good practice and potential ways forward. Legal challenges discussed include issues related to electronic medical records, telemedicine, the Internet and pharmaceutical drugs, healthcare information systems and medical liability. Ethical challenges focus on telehealth and service delivery in the home, Web 2.0 and the Internet, patient perceptions and ethical frameworks. Governance challenges focus on IT governance in healthcare, governance and decision-making in acute care hospitals, and different models of eHealth governance. The publication provides useful support materials and readings for persons active in developing current understandings of the legal, ethical and governance challenges involved in the eHealth context.

Research Handbook on EU Health Law and Policy Tamara K. Hervey, Calum Alasdair Young, Louise E. Bishop, 2017-03-31 The steady expansion of the European Union's involvement in health over the past 20 years has been accelerated by recent events. This handbook offers an up-to-date analytical overview of the most important topics in EU health law and policy. It outlines as far as possible the direction of travel for each topic and suggests research agenda's for the future.

Impacts of Information Technology on Patient Care and Empowerment McHaney, Roger W., Reychev, Iris, Azuri, Joseph, McHaney, Mark E., Moshonov, Rami, 2019-09-20 Modern technology has impacted healthcare and interactions between patients and healthcare providers through a variety of means, including the Internet, social media, mobile devices, and the Internet of Things. These new technologies have empowered, frustrated, educated, and confused patients by making educational materials more widely available and allowing patients to monitor their own vital signs and self-diagnose. Further analysis of these and future technologies is needed in order to provide new approaches to empowerment, reduce mistakes, and improve overall healthcare.

Impacts of Information Technology on Patient Care and

Empowerment is a critical scholarly resource that delves into patient access to information and the effect that access has on their relationship with healthcare providers and their health outcomes Featuring a range of topics such as gamification mobile computing and risk analysis this book is ideal for healthcare practitioners doctors nurses surgeons hospital staff medical administrators patient advocates researchers academicians policymakers and healthcare students **Ethics, Medicine, and Information Technology** Kenneth W. Goodman, 2016-01-14 Information technology is transforming the practices of medicine nursing and biomedical research Computers can now render diagnoses and prognoses more accurately than humans The concepts of privacy and confidentiality are evolving as data moves from paper to silicon to clouds Big data promises financial wealth as well as riches of information and benefits to science and public health Online access and mobile apps provide patients with an unprecedented connection to their health and health records This transformation is as unsettling as it is exhilarating This unique new book is essential for anyone who uses computers in health care biomedical research or public health and cares about the ethical issues that arise in their work With chapters spanning issues from professionalism and quality to mobile health and bioinformatics it establishes what will become the core curriculum in ethics and health informatics a growing field which encourages truly inter and multidisciplinary inquiry **Proceedings of the 2020 Joint Workshop of Fraunhofer IOSB and Institute for Anthropomatics, Vision and Fusion Laboratory** Beyerer, Jürgen, Zander, Tim, 2021-06-22 In 2020 fand der jährliche Workshop des Fraunhofer IOSB und des Lehrstuhls für interaktive Echtzeitsysteme statt Vom 27. bis zum 31.
