## Een Halve Eeuw Beginselstrijd:

Een halve eeuw beginselstrijd Koos Vorrink, 1945      **The Political Mobilization of the European Left, 1860-1980** Stefano Bartolini, 2000-08-28 In an in depth comparative analysis Stefano Bartolini studies the history of socialism and working class politics in Western Europe While examining the social contexts organizational structures and political developments of thirteen socialist experiences from the 1860s to the 1980s he reconstructs the steps through which social conflict was translated and structured into an opposition as well as how it developed its different organizational and ideological forms and how it managed more or less successfully to mobilize its reference groups politically      *A Tiny Spot on the Earth* Piet Rooy, 2025-10-01 In this survey of the Dutch political culture of the nineteenth and twentieth centuries Piet de Rooy reveals that the polder model often used to describe economic and social policymaking based on consensus is a myth Instead modern political culture in the Dutch Low Countries began with a revolution and is rife with rivalries among political and ideological factions De Rooy argues that because of its extremely open economy the country is vulnerable to external political cultural and economic pressures and Dutch politics is a balancing act between profiting from international developments and maintaining sovereignty The sudden rise of populism and Euroscepticism at the turn of the millennium then indicated a loss of this balance Shining new light on the political culture of the Netherlands this book provides insights into the polder model and the principles of pillarization in Dutch society The Dutch edition of this book *Ons stipje op de wereldkaart* was awarded the Prinsjesboekenprijs for the best book on Dutch national politics in 2014 Survey of the Dutch political culture of the nineteenth and twentieth centuries      *The Low Countries History Yearbook* I. Schöffner, 2012-12-06 The present volume number 15 of the *Acta Historiae Neerlandicae* which have been appearing since 1978 under the title *The Low Countries History Yearbook* is the last of the series Economic reasons force the publishers to discontinue it This is a matter for regret Both the editors of the Yearbook and the board of the Nederlands Historisch Genootschap under the auspices of which it has been published are convinced that the books serve a useful purpose We hope that in the future more favourable circumstances will enable Dutch and Flemish historians to start a second series We feel however that the Yearbook should not be allowed to disappear completely In our opinion one of its most attractive features has been the Survey of recent historical works on Belgium and the Netherlands published in Dutch It is the intention of the Nederlands Historisch Genootschap to seek means to continue this in another form probably in that of pamphlets appearing every two years and written by the same or a similar group of experts In that way we may be able to provide a useful service to our colleagues abroad      **Politiek op de plank** Joyce Kraaijeveld, 2009      *Elseviers magazine*, 1977      *Brinkman's catalogus van boeken en tijdschriften*, 1951 With 1901 1910 1956 1960 Repertorium is bound Brinkman's Titel catalogus van de gedurende 1901 1910 1956 1960 Title varies slightly      **Repertorium op Brinkman's Catalogus**, 1951      **Brinkman's alphabetische catalogus van boeken ...**, 1951      *Brinkman's cumulatieve catalogus van boeken*, 1958      *Brinkman's*

Overzichtsbundel van het werk van de vooraanstaande Nederlandse politicoloog      Western European Party Systems European Consortium for Political Research,1983 This acclaimed text on comparative and Western European politics is now available in paperback The book analyses the reasons for the continuity and stability of the established European party systems and describes how changes of policy and opinion have affected the appeal and electoral performance of particular parties It examines issues such as the shifting pattern of electoral support in Europe since the second world war the electoral advantages of incumbency the changing fortunes of mass parties and parties of the left the impact of regionalism on party systems and the danger of political fragmentation caused by the increasing number of parties      **Christelijke encyclopedie: Saadja-Zwolle** ,1961
