**Guarding a Sacred Trust** Mohamad Chehade, Khalil Jassem, 2010-05 The following is a fictional suspense thriller novel by the author Moxie Its principal setting is a portion of the rural river bottom area between the states of Texas and Louisiana along the banks of the Sabine River Much of the early settings for this tale also take place in around and throughout the Caribbean and the West Indies This is only proper in that a large portion of the Caucasian population on the islands of the West Indies are of Scottish or Irish descent It is these descendants that have heavily influenced the generation of the legend of Banshee Bottom It should be noted that there exists two distinct types of episodes the first being one that involves a present or evolving family relationship regarding those involved in the accident and or death and the second being one that occurs involving an accident and or death of a close friend or a significant acquaintance Both types of episode may occur in close proximity or at great distance from the accident and or death In the early days of this tale things were much as they are today with the population being a bit more sparse than today There was of course no electricity no air conditioning no central heat and no cars There are still no cities or even large towns around the bottom but rather just a few old timber mill towns and farming communities It was just such a small farming community where this tale actually begins In the 1880 s each family was a self sufficient entity Whatever I was needed to survive they supplied for themselves by the sweat of their brows If they couldn t grow it they made it with their own hands If they couldn t raise it they hunted it and killed it or they either trapped it or caught it with hook and line In the rare instances when all of this wasn t enough they helped each other as neighbors are meant to do Donors and Archives Aaron D. **Nonprofit Communications** Kelly C. Gaggin,2024-04-02 This text provides a guide to strategic communications for nonprofit organizations that is rooted in the desire to serve and do good Acknowledging that nonprofit organizations like commercial businesses cannot succeed without a communications strategy that supports their overall business goals seasoned practitioner and educator Kelly C Gaggin

explores the industry in a way that nurtures the servant's heart while clearly discussing the business structure of nonprofits and the need in most cases to earn revenue to provide services. She teaches a strategic and integrated approach to communications that is mission based and human centric to align the values of the nonprofit sector with the campaign planning process. This text offers a view of nonprofits at local, national, and international levels of impact and explores those relationships while keeping in mind the value and needs of those being served. This book is an indispensable text for undergraduate and graduate courses in nonprofit strategic communications and/or management as well as an essential resource for nonprofit industry professionals. Online resources also accompany this text. For instructors: lecture slides, syllabus, chapter quizzes. For students: planning templates for DEEEM model. **New Directions for Special Collections** Lynne M. Thomas, Beth M. Whittaker, 2016-10-31. Addressing the most exciting and challenging areas in the profession, this text will be invaluable to any professional looking ahead to the future of special collections and related cultural heritage work. Special collections today, from rare books and other specialized book collections to audio recordings and visual images, offer librarians limitless opportunities to showcase their skills in curating, preserving, and offering access to these resources to patrons. Drawing on innovative practices and enduring values to address challenges and opportunities in the broad realm of special collections librarianship, this book updates the notion of special collections to the wide range of materials, institutions, and contexts where they exist today. The contributed essays describe the various kinds of innovative projects and practices that are sought by IMLS and other funding agencies today and serve to illustrate how going beyond a traditionally limited idea of special collections opens doors to far more engaging opportunities. Spanning the converging worlds of academic and special libraries, rare book collections, archives, museums, and other cultural heritage institutions, this book will be useful to newcomers and seasoned professionals alike. The essays address the recurring themes of managing and welcoming change and the impact of digital technologies throughout the book, whether regarding new approaches to outreach and instruction, the acquisition and curation of non-traditional collections, new structures for discovery and access in a digital world, or the nature of special collections work now. Both experienced professionals and recent graduates from one of the booming archival studies programs will find this text invaluable in creating a successful career in special collections or cultural heritage curation today and in the near future. **The DAC Journal**, 2003
