Dinner Roles American Women And Culinary Culture:

Dinner Roles Sherrie A. Inness, 2001-04 Who cooks dinner in American homes It s no surprise that Mom remains the overwhelming answer Cooking and all it entails from grocery shopping to chopping vegetables to clearing the table is to this day primarily a woman s responsibility How this relationship between women and food developed through the twentieth century and why it has endured are the questions Sherrie Inness seeks to answer in *Dinner Roles American Women and Culinary Culture* By exploring a wide range of popular media from the first half of the twentieth century including cookbooks women s magazines and advertisements *Dinner Roles* sheds light on the network of sources that helped perpetuate the notion that cooking is women s work Cookbooks and advertisements provided valuable information about the ideals that American society upheld A woman who could prepare the perfect Jell O mold whip up a cake with her new electric mixer and still maintain a spotless kitchen and a sunny disposition was the envy of other housewives across the nation Inness begins her exploration not with women but with men those individuals often missing from the kitchen who were taught their own set of culinary values She continues with the study of juvenile cookbooks which provided children with their first cooking lessons Chapters on the rise of electronic appliances ethnic foods and the 1950s housewife all add to our greater understanding of women s evolving roles in American culinary culture *From Betty Crocker to Feminist Food Studies* Arlene Voski

Swinbank, 2021-04-16 Women have always been inextricably linked to food especially in its production and preparation This link which applies cross culturally has seldom been fully acknowledged or celebrated The role of women in this is usually taken for granted and therefore often rendered unimportant or invisible This book presents a wide ranging interdisciplinary and comprehensive feminist analysis of women's central role in many aspects of the world's food systems and cultures This central role is examined through a range of lenses namely cross cultural intergenerational and socially diverse *Postfeminism, Postrace and Digital Politics in Asian American Food Blogs* Tisha DeJmanee, 2022-12-26 This book examines how Asian American women bloggers challenge dominant race and gender discourses through the practice of food blogging Asian American food blogs which situate recipes and food photography within the personal narratives and domestic spaces of Asian American women offer unique insights into the ways that hegemonic race and gender discourses are negotiated in quotidian life The genre's focus on food provides a particularly rich backdrop for this study as it necessarily implicates family histories gendered labour domestic spaces and the power dynamics of consumption These intimate digital texts therefore provide unique insights into the ways that postfeminist and postrace discourses are encountered in the individual's mundane experiences The author engages a critical cultural analysis of food blogs narratives images communities and platforms expressions of post race and feminism discourses are constrained by the commercial logics of this digital culture The author argues that while Asian American food blogs rarely present a sustained challenge to hegemonic identity representation the processes of reproduction and rupture that define this blogosphere consistently reveal the collective desire to push back against the limits of post identities This is a unique and fascinating study which is ideal reading for students and scholars of gender studies media studies cultural studies and sociology **Housework and Housewives in American Advertising** Jessamyn Neuhaus, 2011-11-07 An analysis of how since the end of the 19th century advertising agencies and their housework product clients utilized a remarkably consistent depiction of housewives and housework illustrating that although Second Wave feminism successfully called into question the housewife stereotype homemaking has remained an American feminine ideal **Season to Taste** Caroline J. renegotiating their relationships with food Caroline J Smith begins the book with a historical overview of how the space of the kitchen and the expectations of women associated with it have shifted considerably since the 1960s Better Homes and Gardens as well as the discourse of the second wave feminist movement tended to depict the space as a place of imprisonment The contemporary popular writers examined in *Season to Taste* such as Ruth Reichl Kim Sun e Jocelyn Delk Adams Julie Powell and Molly Wizenberg respond to this characterization by instead presenting the kitchen as a place of transformation In their memoirs and recipes these authors reinterpret their roles within the private sphere of the home as well as the public sphere of the world of publishing whether print or digital publication The authors examined here explode the divide of private feminine and public masculine in both content and form and complicate the genres of recipe writing diary writing and memoir These women writers through the act of preparing and consuming food encourage readers to reconsider the changing gender politics of the kitchen **Material History Review** ,2005 **The Oxford Encyclopedia**
