Disappearing Destinations Climate Change And Future Challenges For Coastal Tourism Ecotourism:

Disappearing Destinations Andrew L. Jones, Michael R. Phillips, M. Phillips, 2011 Current climatic and environmental trends mean that a large number of important coastal destinations across the globe are under threat of change or gradual disappearance Many of these locations are also significant tourist destinations such as the Great Barrier Reef the Everglades National Park or large swathes of the Mediterranean basin Tourism activity both exacerbates the problem and highlights the importance of protecting these often fragile environments This book discusses threats to and consequences of tourism growth and the impacts of climate change on such coastal zones It examines policy initiatives local and national options for managing the potential crisis and recommends steps and management options towards ameliorating projected impacts on coastal tourism infrastructure This is an important book for researchers and students of leisure and tourism land use planning environmental and coastal management and all those interested in and working with the environment conservation and sustainability

Conservation Tourism Ralf Buckley, 2010 Can tourism really support conservation by providing finance or political support for public private or community protected areas This volume tests such claims through a continent by continent review of commercial tourism enterprises worldwide The role of conservation tourism is increasingly important as human populations expand and climate change intensifies

Coastal Scenery Nelson Rangel-Buitrago, 2018-07-03 This book describes an easy to apply methodology to determine the scenic value of a coast As one of the most critical aspects of beach user choice the determination of coastal area scenic quality is of primordial importance This book is therefore an extremely useful tool for any coastal lovers being them users teachers researchers or managers In particular this work is the first book to present a semi quantitative analysis of coastal scenery based on more than 4 000 interviews about people s desired coastal imaginary Twenty six parameters can be used to identify any coastal scene which have then been sub divided into five attribute categories weighted and subjected to fuzzy logic mathematics to obtain a decision number D This number D represents the coastal scenery at that point and Five D classes are then presented from I excellent to V poor Heritage areas like National Parks should lie in Class I which infers top scenic quality Over a time span of a decade or so the authors of this book have assessed more than 900 global locations using the technique given in this book One of the main aims of this method is to point out how scenic areas may be improved by judicious intervention relating to parameters mainly anthropogenic chosen for assessment The content of this book opens perspectives for analysis of the potential for coastal tourism development in natural areas and for landscape quality improvement in current coastal tourist developed areas In a very comprehensive way this book reviews the main concepts about coastal scenery and through the vast global work experience of the authors presents different methodologies as well as introducing a novel methodology using parameter weightings and fuzzy logic mathematics Carlos Pereira da Silva CICS NOVA Universidade Nova de Lisboa Lisbon Portugal Our lives will be greatly enriched by finding beauty but we can use help in defining the many ways beauty can be manifested

This book can help us by informing us of the ways landscapes can be viewed and described from many viewpoints to place our own understanding in better perspective Karl Nordstrom Geography Department Rutgers University New Jersey USA

How do we define and quantify a coast's scenic value This is the book It begins by defining coastal scenery then reviews the approaches to quantifying it followed by a new fuzzy logic approach and examples It finishes with a chapter on how to manage these attractive landscapes many of which are being overrun and ruined by development This is a must read for researchers who wish to evaluate and managers who wish to maintain this valuable yet intangible coastal resource Andrew Short Coastal Studies Unit Sydney University Australia

Tourism Charles R. Goeldner, J. R. Brent Ritchie, 2011-09-27 The 12th Edition of Tourism Principles Practices Philosophies explores major concepts in tourism what makes tourism possible and how tourism can become an important factor in the wealth of any nation Written in global terms it provides an overview of the principles practices and philosophies that affect the cultural social economic psychological and marketing aspects of human travel and the tourism industry Among the topics given expanded coverage in this edition are B Bs time shares meetings and conventions sustainable tourism climate change social media and mobile marketing

Disappearing Destinations Kornelia Marshall, 2016-04 A tourist destination is a city town or other area that is dependent to a significant extent on the revenues accruing from tourism or a country state region city or town which is marketed or markets itself as a place for tourists to visit It may contain one or more tourist attractions and possibly some tourist traps Many of the world's most spectacular landscapes are vanishing because of climate change spurring concerned visitors to experience and protect them before it's too late What would an autumn cycling trip in New England be without colorful maples What's a ski vacation without fresh snow Or an outing to the shore where the beach has eroded These scenarios are unimaginable for many yet global warming threatens to make them a reality as species extinctions severe storms ooding drought melting icecaps and warmer more acidic ocean water transform the outdoor environments we love Vanishing destinations such as the Great Barrier Reef Maldives Galapagos Island and polar regions provide tour operators with an opportunity to market their products with the unique selling point to see it before it is gone tourism Bleaching corals melting ice caps disappearing islands and wildlife are indicators that put these destinations on the must see lists This kind of tourism defined as Doom tourism Climate tourism or Last chance tourism which is the preferred term by academics is a trend whereby tourists more and more seek to experience most endangered sites in the world before they will be gone Visiting disappearing destinations can provide unique opportunities to develop environmental awareness Furthermore the increasing demand to these specific destinations is economically beneficial for tour operators and the local community who may even depend on tourism for their livelihood This book Disappearing Destinations Climate Change and Future Challenges for Coastal Tourism discusses threats and consequences of climate predictions on coastal tourism destinations It will be an essential tool for researchers policymakers and students in tourism ecotourism environmental conservation planning coastal management and engineering

climate change and marine conservation Recreational Disturbance of Shorebirds in Tropical Asia Priyan Perera, Sumudu Marasinghe, Greg D. Simpson, David Newsome, 2022-09-16 Much of that growing demand for coastal recreation and tourism has focused on countries in South and Southeast Asia in the tourism megaregion that this book refers to as Tropical Asia As such the recreational disturbance of shorebirds in Asia is a serious conservation issue at a time when populations of both migratory and non migratory species of shorebirds are threatened and declining because of the loss of coastal habitat and increased human disturbance Despite global awareness about the impacts that the growth of coastal recreation and tourism across Tropical Asia is likely to be having on threatened and endangered migratory and resident shorebird species of the coastal zones of the East Asian Australasian Flyway less than 3% of the published peer reviewed research into the recreational disturbance of shorebirds addresses coastal zones of Tropical Asia This situation points to a significant knowledge gap regarding the impacts of human recreation on shorebirds in the Tropical Asian region In contrast almost three quarters of the peer reviewed articles that report recreational disturbance research and management strategies focus on coastal zones in North America 36% Oceania 20% and Europe 20% For those reasons the quantitative systematic literature review and research case study from Sri Lanka reported in this book provide a call to action and recommendations for both management approaches grounded in the international literature and a research agenda that should be implemented in the coastal zones of Tropical Asia **Global Climate Change and Coastal Tourism** Andrew L Jones, Michael Phillips, 2017-11-29 Building upon the book Disappearing Destinations Jones and Phillips 2010 and its conclusion that promoted the need to recognize problems meet expectations and manage solutions Global Climate Change and Coastal Tourism explores current threats to and consequences of climate change on existing tourism coastal destinations Part 1 of the book provides a theoretical platform and addresses topics such as sustainability tourism impacts governance trade and innovation and how the media addresses climate change and tourism It also assesses management and policy options for the future sustainability of threatened tourism coastal destinations Part 2 presents case studies from all regions of the world Europe The Americas Asia Africa and Australasia which synthesise findings to make recommendations that can be used to promote strategies that ameliorate projected impacts of climate change on coastal tourism infrastructure and in turn promote the future sustainability of coastal tourism destinations This is a timely and informative text with appeal to researchers undergraduate and post graduate students of tourism management tourism planning sustainable tourism development and leisure management coastal tourism management environmental management planning geography coastal zone management or climate change studies Island Tourism Jack Carlsen, Richard Butler, 2011 Islands are the most vulnerable and fragile of tourism destinations and will experience even more pressure as the combined impacts of economic social and environmental change accelerate in the future In order to understand the process of island tourism development response to change and challenges and their journey to sustainability this book provides insights and instruction on topics

including social cultural environmental and economic aspects of island tourism It contains essential information for policymakers planners researchers managers and operators within the tourism industry *Last Chance Tourism* Harvey Lemelin,Jackie Dawson,Emma J. Stewart,2013-03 Concerns over vanishing destinations such as the Great Barrier Reef the Everglades of Florida the ice cap on Mt Kilimanjaro and the Maldives have prompted some travel operators and tour agencies to recommend these destinations to consumers before they disappear This is the first book to empirically examine and evaluate this contemporary tourism development providing a new angle on the effects of global change and pressures of visitation on tourism destinations It aims to develop the conceptual definition of last chance tourism examine the ethics surrounding this type of travel and provide case studies highlighting this form of tourism in different regions In particular it critically reviews the advantages of publicizing these vulnerable destinations to raise awareness and promote conservation efforts but also the issue of attracting more tourists seeking to undergo such experiences before they are gone forever accelerating the negative impacts It further examines current trends discusses escalating challenges and highlight future opportunities **The Encyclopedia of Sustainable Tourism** Carl I Cater,Brian Garrod,Tiffany Low,2015-10-01 Tourism is the world s fastest growing industry and impacts globally upon ecology economies peoples cultures and the built environment Development therefore must be sustainable and sympathetic in order to preserve the environment and culture it exploits Despite sustainable tourism being an area of considerable recent interest there has been no synthesis of the diverse considerations of sustainable tourism and the language and terms particular to this subject An important resource for researchers of tourism this reference work defines and explains terms associated with considering and preserving the environment host peoples communities cultures customs lifestyles and social and economic systems **Responsible Tourism** David Leslie,2012 Tourism is one of the world s biggest industries Responsible tourism is concerned with the effects of tourism on people ecology and communities and seeks to ameliorate these impacts by providing tourism which benefits host communities improves working conditions involves the local community promotes cultural heritage and benefits the environment This book discusses responsible tourism as a whole including the politics policy and planning behind it and the major subject sub topics such as poverty reduction the environment transport governance wildlife tours and heritage It is *Climate Change and Tourism* World Tourism Organization,United Nations Environment Programme,2008 The publication reveals the significance of the tourism sector to the impacts of climate change It includes important scientific and technical information and detailed assessment of greenhouse gas emissions from tourism sector along with an analysis of improvement strategies and measures The book also presents a detailed analysis of the relations between tourism and climate change the impact of climate change at destinations the adjustment of opportunities and approaches and the implications for tourism demand patterns In addition it comprises an essential contribution of the United Nations in the ongoing commitment to take actions to face the challenges of climate change **Leisure, Recreation, and Tourism Abstracts** ,1995 Tourism

Recreation Research ,2004 **BBC Wildlife** ,2002 **Coastal Tourism, Climate Change, and Sustainability** Devjit Sampath,2025-02-20 Coastal Tourism Climate Change and Sustainability delves into the intricate relationship between climate change and the vital sectors of fisheries and aquaculture in the Caribbean With an average of 50 million tourists annually the Caribbean is the most tourism dependent region in the world Most tourist infrastructure including 2 600 hotels and nearly three quarters of the population are concentrated along the coast Despite contributing less than 1% to global climate change Caribbean island nations face increasingly violent hurricanes rising sea levels higher temperatures and the loss of corals and mangroves Many stakeholders including holidaymakers homeowners governments tourism developers and operators are not fully aware of climate change s reality The essays and case studies in this anthology highlight two key truths many environmental problems pre existed climate change but are exacerbated by it and many climate change mitigation and adaptation technologies are part of the sustainable tourism toolkit refined in recent decades The book emphasizes that businesses and coastal destinations adopting socially and environmentally sustainable practices such as coastal setbacks soft engineering renewable energy water recycling and reduction and green construction can be more resilient to climate change Tourism master planning and construction today require new standards incorporating protection against current risks and climate change through intelligent planning sustainable design and responsible construction Focusing on beaches and hotels this book and its accompanying volumes are designed for use by university courses both graduate and undergraduate tourism companies practitioners and associations governments international financial and development agencies and concerned travelers **Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards** ,2008 **Handbook on Managing Nature-Based Tourism Destinations Amid Climate Change** Ante Mandić,Anna Spenceley,David A.
