Disappearing Persons Shame And Appearance Suny Series In Psychoanalysis And Culture:

Disappearing Persons Benjamin Kilborne, 2002-01-01 In *Disappearing Persons* psychoanalyst Benjamin Kilborne looks at how we control appearance as an attempt to manage or take charge of our feelings. Arguing that the psychology of appearance has not been adequately explored, Kilborne deftly weaves together examples from literature and his own clinical practice to establish shame and appearance as central fears in both literature and life and describes how shame about appearance can generate not only the wish to disappear but also the fear of disappearing. A hybrid of applied literature and psychoanalysis, *Disappearing Persons* helps us to understand the roots of the psychocultural crisis confronting our increasingly appearance-oriented shame-driven society.

Shame and Guilt in Chaucer Anne McTaggart, 2012-09-14 Explores the representation of emotions as psychological concepts and cultural constructs in Geoffrey Chaucer's narrative poetry. McTaggart argues that Chaucer's main works, including *The Canterbury Tales*, are united thematically in their positive view of guilt and in their anxiety about the desire for sacrifice and vengeance that shame can provoke.

Passionate Playgoing in Early Modern England Allison P. Hobgood, 2014-01-23 Allison P. Hobgood tells a new story about the emotional experiences of theatregoers in Renaissance England. Through detailed case studies of canonical plays by Shakespeare, Jonson, Kyd, and Heywood, the reader will discover what it felt like to be part of performances in English theatre and appreciate the key role theatregoers played in the life of early modern drama. How were spectators moved by delight, fear, or shame, for example, and how did their own reactions in turn make an impact on stage performances? Addressing these questions and many more, this book discerns not just how theatregoers were altered by drama's affective encounters but how they were undeniable influences upon those encounters. Overall, Hobgood reveals a unique collaboration between the English world and stage, one that significantly reshapes the ways we watch, read, and understand early modern drama.

Scenes of Shame Joseph Adamson, Hilary Clark, 1998-10-15 The significance of shame as a critical human emotion has come to be recognized in the fields of psychoanalysis, psychotherapy, and psychology. *Scenes of Shame* brings this body of theory to bear on literary and philosophical representations of shame. The contributors explore the role of shame as an important affect in the psychodynamics of a wide range of literary and philosophical works, including essays on Kierkegaard, Hawthorne, George Eliot, Nietzsche, Lawrence, Faulkner, Sexton, and Toni Morrison. The book also includes an analysis of the problem of shame in student lifewriting in the classroom and testifies to the importance of affect in philosophy and literature, as well as to the way in which imaginative writers can clarify and enrich our understanding of an emotion that, as Silvan Tomkins claims, strikes

deepest into the human heart SUNY Series in Psychoanalysis and Culture State University of New York,199? **The Many Faces of Shame** Donald L. Nathanson,1987-06-01 For almost a century the concept of guilt as embedded in drive theory has dominated psychoanalytic thought Increasingly however investigators are focusing on shame as a key aspect of human behavior This volume captures a range of compelling viewpoints on the role of shame in psychological development psychopathology and the therapeutic process Donald Nathanson has assembled internationally prominent authorities engaging them in extensive dialogue about their areas of expertise Concise introductions to each chapter place the authors both historically and theoretically and outline their emphases and contributions to our understanding of shame Including many illustrative clinical examples the book covers such topics as the relationship between shame and narcissism shame s central place in affect theory psychosis and shame and shame in the literature of French psychoanalysis and philosophy

Shame and Guilt Gerhart Piers,Milton B. Singer,2015-01-02 2015 Reprint of Original 1953 Edition Exact facsimile of the original edition not reproduced with Optical Recognition Software A psychoanalyst and an anthropologist collaborate in this now famous formulation Guilt and shame are feelings resulting from certain childhood experiences Although the terms appear to have similar meanings and are often used interchangeably each of the two feelings influences different patterns of behavior and probably contributes to different character types This book whose influence and renown have steadily grown since its first publication is a psychoanalytic and cultural study of shame and guilt It comprises two essays on the subject In Part I Dr Gerhart Piers a psychoanalyst gives concise definitions of these two previously inadequately define terms and clearly distinguishes between them He discusses the experiences that can cause guilt or shame in an individual why some persons develop into guilt ridden individuals and others become shame driven and the special and sharply different therapeutic considerations that must be given to the person afflicted with guilt or shame In Part II Dr Milton Singer an anthropologist applies Dr Piers analysis of guilt and shame within the individual to his own study of cultures The title of the second essay by Singer is Shame Cultures and Guilt Cultures **Shame and the Self** Francis J. Broucek,1991-04-26 In this ambitious new work Frank Broucek explores the affect of shame its functions and its relationship to sexuality self and others With a special focus on the relationship between shame and self objectification he proposes an innovative new theory that links shame to our sense of self from early development through maturity In exploring this theme Broucek a psychoanalytically trained psychiatrist breaks new ground in understanding the development of the self establishing a perspective on narcissism that differs markedly from traditional psychoanalytic concepts An illuminating overview of the modern literature precedes a provocative analysis of the role of shame in the formation of the self Here Broucek identifies the three major sources of shame the infant s experiences of interpersonal inefficacy self objectification resulting in a kind of self alienation or primary dissociation and the experience of being unloved rejected or scapegoated by important others In the course of development these vectors cause the self s overinvestment in the idealized self image and a devaluation of the

actual self an event explored in depth in the chapter on narcissism Broucek also addresses the role of shame in psychoanalysis and in society The neglect of this emotion in psychoanalytic theory and technique the author contends results from a critical lack of understanding of shame and its effect potentially adverse on the practice of psychotherapy Finally Broucek s analysis of widespread shamelessness in modern times logically extends the ideas presented earlier Maintaining a critical balance in its coverage and interpretation SHAME AND THE SELF marks a significant contribution to the understanding of the nature of shame and its role in our psychic life As such it is essential reading for all practicing psychiatrists psychologists social workers and other mental health practitioners The Mask of Shame Leon Wurmser,1995
