Disaster And Development The Politics Of Humanitarian Aid:

Disaster and Development Neil Middleton, Phil O'Keefe, 1998 A critical account of the politics of aid giving

Security and Development in Global Politics Joanna Spear, Paul D. Williams, 2012-03-06 Security and development matter they often involve issues of life and death and they determine the allocation of truly staggering amounts of the world's resources. Particularly since the start of the wars in Afghanistan and Iraq there has been momentum in policy circles to merge the issues of security and development to attempt to end conflicts, create durable peace, strengthen failing states and promote the conditions necessary for people to lead healthier and more prosperous lives. In many ways this blending of security and development agendas seems admirable and designed to produce positive outcomes all around. However, it is often the case that the two concepts in combination do not receive equal weight, with security issues getting priority over development concerns. This is not desirable and actually undermines security in the longer term. Moreover, there are major challenges in practice when security practitioners and development practitioners are asked to agree on priorities and work together. **Security and Development in Global Politics** illuminates the common points of interest but also the significant differences between security and development agendas and approaches to problem solving. With insightful chapter pairings, each written by a development expert and a security analyst, the book explores seven core international issues: aid, humanitarian assistance, governance, health, poverty, trade, and resources, and demography. Using this comparative structure, the book effectively assesses the extent to which there really is a nexus between security and development and, most importantly, whether the link should be encouraged or resisted.

Disaster, Governance and Development Mohammad Tarikul Islam, 2023-05-12 This book unveils the nexus between disaster governance and development with a particular focus on Bangladesh and examines the legislative and institutional aspects in mainstreaming disaster risk reduction into development planning. With the help of rich content analysis interpreting disaster management history of the country, it looks at the challenges associated with disaster management in the context of Bangladesh. The book highlights the most reasonable strategy on how to accelerate a paradigm shift from relief culture to DRR culture. It also assesses the viewpoint of how political economy influences governance and institutional strengthening, thus identifying obstructions and opportunities for mainstreaming disaster management into development. The book also lays emphasis on collaboration between public sector and private sector for the expansion of disaster risk reduction programme. It shows how multilevel governance works for professionalizing disaster management and throws light on policy frameworks developed. This book is a tremendous resource for scholars, practitioners, and researchers of disaster management, environmental studies, development agencies, political science, public policy, development studies, governance, regional development, South Asian studies, and local government, particularly those interested in disaster governance and sustainable development.

Disasters and Changes in Society and Politics Giuseppe Forino, 2024-01-16 From earthquakes to oil spills, Italy is recurrently affected by different kinds of

disasters This book brings a critical perspective to post disaster reconstruction and recovery which can impact in both the short and long term upon society politics and organizations It is often assumed that disaster hit areas return to normality or even build back better thanks to the interventions of experts Giuseppe Forino considers the complexities of disaster recovery and the sometimes radical changes in individual and collective behaviours that persist following such events Bringing together the impacts of natural hazards including climate change and the COVID 19 pandemic this edited book will stimulate debate on policy and practice in disaster recovery *American Treaties and Alliances* Alan Axelrod,2000-04 Contains articles that provide information about 747 historical and modern day treaties to which colonial America and the United States have been party each with the dates signed and ratified signatories an overview and a discussion that in some cases includes extensive quotations from the actual text of the document **The Politics and Policies of Relief, Aid and Reconstruction** Fulvio Attina,2012-10-15 Disaster policies present a new challenge to the practitioners and students of global politics this book explains how political science enriches the contribution of the social sciences to the study of disaster relief aid and reconstruction following the major disaster events both natural and man made of recent times **Journal of International Affairs** ,2005 **Change Management for Information Services** Sharon Penfold,Sheila Allcock,1999 At a time when most organizations are in transformation helping LIS professionals cope with change management is essential This book transforms theories of change management into practical guidelines summaries and lists for the information profession while explaining the implications of the information society on the profession An invaluable aid in establishing clarity of organization and direction it also includes helpful case studies recommended reading and a bibliography **Forum for Development Studies** ,1999 Debating Development Deborah Eade,Ernst Ligteringen,2001 Non government organisations working in the humanitarian and development sectors won official approval in the 1980 s and 1990 s but there are signs now that they are losing favour The NGO sector stands accused by some of complacency and self interest on the one hand and of being ineffectual and irrelevant on the other NGOs are increasingly challenged to demonstrate their legitimacy as representative voices of civil society NGOs themselves are taking a hard look at their mandates their core values and their role on a changing international stage Contributors to this volume reflect on what kind of development will eradicate poverty and what types of agency are best suited to the task Leading representatives of NGOs development think tanks and civil society organisations as well as scholars and activists ask What model of international co operation can deliver social and economic justice And what does this mean for NGOs in the future *Indian Journal of Economics* ,2003 *International Order and the Politics of Disaster* Scott D. Watson,2019-09-02 In this indispensable and comprehensive text Scott D Watson critically examines the current understanding of international order that underpins international disaster management and disaster diplomacy Based on empirical analysis of the three international disaster management regimes disaster relief disaster risk reduction and disaster migration and case studies of disaster diplomacy in

the United States Egypt and China Watson argues that international disaster management and disaster diplomacy are not simply efforts to reduce the impact of disasters or to manage bilateral relations but to reinforce key beliefs about the larger international order Challenging the conventional understandings of disasters as natural as exogenous shocks or as unintended and accidental outcomes of the current order this text shows how the ideological foundations of the current heterogeneous international order produce recurrent disasters International Order and the Politics of Disaster is a vital source for undergraduate or graduate students interested in international responses to disasters and complex humanitarian emergencies forced migration and displacement as well as climate change and development **Kenya** Godwin R. Murunga, Shadrack Wanjala Nasong'o, 2007 This uniquely comprehensive study of Kenya's political trajectory shows how the struggle for democracy has been waged in civil society through opposition parties and amongst traditionally marginalised groups like women and the young It also considers the remaining impediments to democratisation in the form of a powerful police force and damaging structural adjustment policies Thus the authors argue democratisation in Kenya is a laborious and non linear process Kenyans recent electoral successes the book concludes have empowered them and reinvigorated the prospects for democracy heralding a more autonomous and peaceful twenty first century Publisher's Description

Yearbook of International Organizations 2014-2015 (Volume 4) Union Of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations **Bookseller**, 1998 *International and Local Actors in Disaster Response* Tania N. Haddad, 2022-06-19 *International and Local Actors in Disaster Response* uses the Beirut explosion in August 2020 to explore disaster prevention and response in developing states Disasters whether man made or natural have always tested governments and their bureaucracies Despite numerous research efforts existing empirical literature does not provide conclusive evidence on how multiple aspects of social infrastructure can simultaneously affect disaster preparedness and recovery and what role the international community can have This book analyzes the role of international and local organizations in responding to the disaster in Beirut and assesses the interorganizational collaboration between the public and private sectors following the explosion The author develops a conceptual framework of government non profit relations in post disaster management and

examines the long term disaster response and intervention of both international and local communities in a developing world context This book will be of interest to students scholars and researchers of disaster management and response public administration international relations and the non profit sector

Development and Humanitarianism Deborah Eade, Tony Vaux, 2007 Humanitarian intervention invariably rubs shoulders with politics albeit awkwardly and sometimes even with tragic results Tensions between them take many forms ranging from different assessments of the extent or even the existence of a crisis to claims that humanitarian assistance is not saving innocent lives but sustaining politico military forces or to the conclusion that the constraints upon them compel aid agencies to withdraw from the area of operation completely whether to ensure the safety of their own staff or because they believe that their integrity is unacceptably compromised by staying Development and Humanitarianism addresses these and other dilemmas that aid agencies face in interpreting the principles of humanitarianism in contexts where they risk being manipulated by political agendas The contributors have extensive experience as frontline aid workers agency policy makers academics and researchers and professional consultants around the world Like every book in the Development in Practice Readers series Development and Humanitarianism draws on the contents of the acclaimed international journal Development in Practice and includes an annotated resource list of recent publications relevant journals organizations and websites presenting a cutting edge guide to thinking and action Other Contributors Gretchen Alther Andrew Bonwick Julia Buckmaster Udan Fernando Dorothea Hilhorst Jonathan Makuwira Vanessa Pupavac Volker Schimmel Astri Suhrke Frank James Tester Martha Thompson and Suzanne Williams

International Development and Assistance Andrzej Bolesta, 2004 *The Journal of Economic Perspectives*, 2007 This journal attempts to fill a gap between the general interest press and other academic economics journals Its articles relate to active lines of economics research economic analysis of public policy issues state of the art economic thinking and directions for future research It also aims to provide material for classroom use and to address issues relating to the economics profession
